	vain Ichm11	n lchm1141b 2023			Organic chemistry
	6.00 credits	6.00 credits 30.0 l		Q2]

Teacher(s)	
------------	--

Teaching methods	All teaching is done face-to-face. However, some courses and/or introductory sessions and exercises may be given by video due to the number of registrants and the limited capacity of the auditoriums.
Content	 Introduction and reminders : chemistry; carbon; VSEPR theory; representing a molecule; hydrocarbons; major functional groups in organic chemistry. Isomerism : Constitutional isomers; stereoisomerism; stereogenic center and stereogenic carbon atom; properties of enantiomers; geometric isomerism; conformational isomerism; the cycloalkanes. Reactivity : Reactivity : Reactivity in organic chemistry; nucleophiles and electrophiles; change in electron density on an atom or group of atoms; acidity and basicity in organic chemistry; factors that influence acidity and basicity; effect of solvent. Multiple bonds : Preamble; stability of alkenes; reactivity of alkenes; Addition of HX to alkene; hydration of an alkene; alcoholysis of an alkene; halogenation of an alkene; hydroboration of an alkene; oxidation of an alkene; alkynes. Aromatic chemistry : Aromaticity; the electrophilic substitution reactions on aromatic ring; Halogenation, nitration, sulfonation, alkylation, and acylation of aromatic compounds. Substitution and elimination reactions : Preamble; Alkanes and haloalkanes; The second-order and first-order nucleophilic substitution reaction; Elimination reactions; Substitution and elimination competition. Alcohols, ethers and epoxides : preamble; properties of alcohols and ethers; synthesis of alcohols; oxidation of alcohols; oxidation and reduction in organic chemistry; synthesis and reactivity of ethers; synthesis and reactivity of epoxides. Carboxylic acids and derivatives : preamble; physical properties and reactivity; the activated and deactivated forms of a carboxylic acid; acid chloride; acid anhydride; esters; amides. Exercise sessions and labs illustrate key concepts seen in the theory course.
