Additional module in computer science

Table of contents

APPSINF - Introduction

Introduction

Introduction

This additional module in Computer Science offers:

• a deepening and broadening of knowledge and skills in different areas in computer science

• to study and deepen further themes not addressed in the major course.

Therefore, the additional module in computer science does not anticipate courses normally present within the master in computer science.

Most of the activities proposed in this additional module are oriented towards informatics for organizational business needs. Various themes are addressed as the place of information systems in business, project management, taking into account non-technical issues in the company, the interface between man and machine ...
