

DENT2M

2023 - 2024

- 6.1. Fournir des informations à propos de ses connaissances, ses diagnostics, ses propositions de traitements, dans un degré de complexité approprié et adapté (type de vocabulaire, quantités d'informations, ...),
- 6.2. Connaître ses compétences et les limites de sa propre expertise,
- 6.3. Inscrire son action dans une équipe pluridisciplinaire en respectant la hiérarchie, les différents rôles / fonctions de chacun des acteurs et l'organisation de l'institution,
- 6.4. Collaborer avec d'autres professionnels pour promouvoir la gestion efficiente des moyens cliniques limités.

7. Agir en professionnel social et responsable

Il sera capable de comprendre sa pratique par une approche sociétale, éthique et économique.

- 7.1. Situer la place (relative) de la pratique dentaire dans l'amélioration de la santé générale de la population et analyser les enjeux actuels pour la santé et les systèmes qui les régissent,
- 7.2. Développer une pratique professionnelle socialement responsable, morale et éthique,
- 7.3. Gérer l'organisation d'un cabinet dentaire (informatique, hygiène, surface exploitable, équipe, gestion de dossier,...) et sa comptabilité,
- 7.4. Connaître et respecter les aspects déontologiques et légaux relatifs au traitement dentaire, à la confidentialité et à l'erreur médicale,
- 7.5. Connaître et régler les conflits d'intérêts qui surviennent dans l'exercice de ses fonctions et de son activité professionnelle.

8. Apprendre et s'améliorer tout au long de la vie

Il sera capable de faire preuve d'un esprit critique vis-à-vis de ses propres apprentissages ainsi que des informations scientifiques qui lui sont communiquées.

- 8.1. Identifier ses acquis d'apprentissages dans une perspective d'auto-évaluation et pour constituer un parcours complémentaire de formation (formel ou informel) en fonction de ses besoins et de ses intérêts,
- 8.2. Respecter les recommandations scientifiques et comprendre des documents écrits et parlés, notamment en anglais, dans le domaine médical en général comme de la dentisterie en particulier, en assurer une bonne utilisation, afin de générer de nouvelles connaissances,
- 8.3. Contribuer à l'amélioration constante de la qualité des soins de manière individuelle et par le biais de son association professionnelle.

Programme structure

The Master in Dentistry, mainly centred on clinical practice, comprises core subjects of 90 credits and a professional focus of 30 credits. The core subjects comprise a dissertation, clinical science and a language course.

The professional focus is largely made up of training activities on buccal and oro-facial pathologies and treatments and general medical science.

Students must take the whole programme. They only have a choice between language courses and courses in religious sciences.

Course prerequisites

There are no prerequisites between course units (CUs) for this programme, i.e. the programme activity (course unit, CU) whose learning outcomes are to be certified and the corresponding credits awarded by the jury before registration in another CU.

The programme's courses and learning outcomes

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the the skills expected of every graduate on completion of the programme. Course unit descriptions specify targeted learning outcomes, as well as the unit's contribution to reference framework of learning outcomes.

DENT2M - Information

Access Requirements

Master course admission requirements are defined by the French Community of Belgium Decree of 7 November 2013 defining the higher education landscape and the academic organisation of courses.

General and specific admission requirements for this programme must be satisfied at the time of enrolling time of 1 h W n 0.6627 G [] 0 d 1 w 0 0.5 m 10

> It is possible, under certain conditions, to use one's personal and professional experience to enter a university course without having the required qualifications. However, validation of prior experience does not automatically apply to all courses. Find out more about [Validation of priori experience](#).

This being the case, the master's degree in dental sciences is not accessible according to the procedure for valuing acquired experience.

Admission and Enrolment Procedures for general registration

Specific professional rules

These studies lead to a professional title subject to specific rules or restrictions on professional accreditation or establishment.

You will find the necessary legal information by [clicking here](#).

Teaching method

The excellence of the training in dentistry at UCLouvain is mainly due to the clinical supervision and the quality of the work placements.

Clinical teaching is an important part of the programme, accounting for 63 of the total 120 credits. As students gradually acquire essential theoretical and preclinical skills, the teaching becomes concentrated on these clinics. At first, students on work placement are very closely supervised ; gradually, they are trained and encouraged to develop autonomy in their work so that they can work completely independently once they have gained their degree. It should be emphasized that at the end of the Master programme, assessment only relates to the clinical placements and the dissertation. The dissertation enables students to gain appreciation and a critical attitude which go together with high quality technical skills.

To help achieve these objectives, some teachers (Bac 2 & Bac 3)elp ace2Tadually, they are trained and encouraged to develop autonomy in their work s
