### Introduction

---

#### Introduction

***Students can follow the "Master 120 en études européennes / Master 120 in European Studies" as a bilingual programme in French and English or they can choose to take all the courses in English only.***

The European dimension is playing a growing role in social and economic affairs, in lawmaking and in the political lives of Member States, and has an increasing influence - directly or indirectly - on the lives of European citizens.

The Master in European Studies aims to prepare students for positions where this European dimension is important.

Classes take place in Louvain-la-Neuve.

## EURO2M - Teaching profile

### Learning outcomes

---

**Students enrolled on the Master [120] in European Studies course are working towards becoming experts in the European public policy with the ability to thoroughly and critically analyse contemporary political phenomena and current political changes, to explain these and act within, for and on society, having formed an understanding of and ethics relating to public service.**

The European dimension is playing an increasing role in socio-economic activities, law-making and the political issues of the Member States while impacting increasingly, directly or indirectly, on the lives of European citizens.

The aim of the Master in European Studies programme is to prepare graduates for employment in positions related to this European

## Course prerequisites

---

The **table** below lists the activities (course units, or CUs) for which there are one or more prerequisites within the programme, i.e. the programme CU for which the learning outcomes must be certified and the corresponding credits awarded by the jury before registering for that CU.

These activities are also identified in the **detailed programme**: their title is followed by a yellow square.

### Prerequisites and student's annual programme

As the prerequisite is for CU registration purposes only, there are no prerequisites within a programme year. Prerequisites are defined between CUs of different years and therefore influence the order in which the student will be able to register for the programme's CUs.

In addition, when the jury validates a student's individual programme at the beginning of the year, it ensures its coherence, meaning that it may:

- require the student to combine registration in two separate CUs which it considers necessary from a pedagogical point of view.
- transform a prerequisite into a corequisite if the student is in the final year of a degree course.

## The programme's courses and learning outcomes

---

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the skills expected of every graduate on completion of the programme. Course unit descriptions specify targeted learning outcomes, as well as the unit's contribution to reference framework of learning outcomes.
