GEST2M - Introduction

Introduction

Introduction

The Master's 120 credits in Management is a two-year programme that is intended to strengthen the managerial abilities of students who, on top of their training in management, economics, and quantitative methods, also have a background in social sciences (sociology, law, psychology, anthropology, philosophy, political science).

Your profile

- You have a Bachelor's degree in economics and/or management;
- You have a Bachelor's degree in another social science with a minor in management and you wish to strengthen your managerial skills;
- You wish to become an ethical and community-minded leader;
- You are motivated by entrepreneurial drive and a desire to learn how to work effectively in a team;
- You are looking for a high-quality education, based on solid scientific knowledge, in all management fields;
- You seek to develop concrete in-company experience and participate in the management of complex and innovative projects;
- You wish to develop your skills in the management of organisations.

Your future job

The Master's 120 credits in Management aims at developing competent leaders who are:

- **Ethical and community-minded** – that is, people who care about broader society, are willing to undertake cultural change for more ethical and sustainable developments, and can contribute to the common good by participating in the design of new political governance;
- **Entrepreneurial and innovative** – that is, people who are willing and able to launch innovative projects, solve complex problems by adopting a systemic perspective, and change business norms;
- **Responsible and inspiring** – that is, people who are free, talented and respectful of the talents of others, profoundly honest and tolerant, and also clear-sighted and dynamic personalities.

Our graduates can access the highest corporate management positions in multiple sectors. Besides consultancy, auditing, banking, sales, and retail, graduates in Management are often found in positions related to marketing, people management, or corporate social responsibility.

Your programme

The programme of the Master's 120 credits in Management is composed of the following four components:

- **Core training.** All master's students must complete focus courses that equip them with the necessary knowledge and competences to achieve excellence and ethics in management in today's challenging world. Through these courses, students acquire a broad and solid grasp of the two forces that are deeply reshaping our society and economy – Green Transition and Digital Transformation – whilst being provided with the appropriate set of methods and guiding principles – Complexity Management and Corporate Social Responsibility.
- **Business exposure.** Students get acquainted with the practical business environment in several ways. In the first term of the programme, students achieve a Consulting Project under the joint supervision of professors and practitioners; the aim is to solve a real business problem and, thereby, to acquire a hands-on learning experience. In the fourth term, students must complete an internship of a minimum of 60 consecutive days. Two seminars also expose students to Current Managerial Issues (through testimonies of high-profile executives) and equip them with Relational and Managerial Competences.
- **Specialized training.** Students acquire in-depth education in some field of management by choosing a Major, that is, a group of five connected courses that focus on a given subject (finance, marketing, people management, ...) or topic (European business, consumer insights, corporate social responsibility, ...). Students also hone their knowledge of a specific management issue through the autonomous, critical, and rigorous research they perform for the completion of their Master's thesis.
- **International exposure.** To prepare students for the global environment in which they will evolve, our programmes propose several ways for strengthening their flexibility, intercultural skills, and open-mindedness. Our Exchange Programme allows students to spend the third term of the programme in one of our 130+ partner universities throughout the world. Students who cannot seize this opportunity take a dedicated set of courses – including Cross-cultural Management and Language courses. Students in the Master's 120 credits in Management can also apply to prime international tracks, namely the CEMS (<https://uclouvain.be/en/faculties/lsm/cems.html>) Master in International Management (exclusive entry point in Belgium) and an array of double degree (<https://uclouvain.be/en/faculties/lsm/double-degree.html>) programmes. Students are also regularly presented with global managerial issues and brought into contact with international organizations through a large array of activities.

3. A scientific and systematic approach: Analyze and resolve problems in multidisciplinary and complex management situations using a scientific and systematic approach.

- 3.1. Conduct a clear, structured, analytical reasoning by applying, and eventually adapting, scientifically based conceptual frameworks and models, to define and analyze a problem.
- 3.2. Collect, select and analyze relevant information using rigorous, advanced and appropriate methods.
- 3.3. Consider problems using a systemic and holistic approach: recognize the different aspects of the situation and their interactions in a dynamic process.
- 3.4. Perceptively synthesize the essential elements of a situation, demonstrating a certain conceptual distance, to diagnose and identify pertinent conclusions.
- 3.5. Produce, through analysis and diagnosis, implementable solutions in context and identify priorities for action.

4. Innovation ad Entrepreneurship: Innovate, initiate and lead change.

- 4.1. Identify new opportunities, propose creative and useful ideas in situations that require new strategic approaches, break with existing models and paradigms, promote progress and change.
- 4.2. Initiate, develop and implement ideas around a new product, service, process or organizational structure, having evaluated the risks and remain pragmatic.
- 4.3. Integrate, collaborate and actively drive forward collective actions for change, and diffuse for social awareness.
- 4.4. Reflect on and improve the content, processes and goals of professional practices.

5. Work effectively in an international and multicultural environment: Work as an interface between stakeholders with different rationales, belief systems, training, nationalities, cultures ...

- 5.1. Understand the inner workings of an organization: develop a global approach and integrate the internal logic used, within the organization.
- 5.2. Position and understand the functioning of an organization, in its local and international socio-economic dimensions and identify the associated strategic issues and operational decisions.
- 5.3. Understand and establish their own role and scope for action, in the overall operation of the organization, while liaising with the various internal and external stakeholders.

6. Teamwork and leadership: Integrate and work in a team, exercise enlightened leadership within the group.

Assessments can be organised at the end of each six-week part or during the examination sessions at the end of the term in addition to the continuous assessment (intermediate tests, individual and group work) that is organised during that part.

GEST2M Programme

Detailed programme by subject

CORE COURSES [35.0]

In annual block 1, the student must take:

- focus courses (30 credits)
- two seminars (5 credits)
- a major, composed of 5 courses, (25 credits) to be chosen from the list below.

In annual block 2, the student must follow:

- if s/he does not go on exchange, the "LSM courses (if no exchange)" including 2 elective courses as well as a language course (15 credits) + 1 Option (i.e. 3 courses for 15 credits) (see below)
- the internship (10 credits)
- the Master's thesis and its seminar (20 credits)

If you choose to follow a major and/or an option offered on the Mons' site, please note that you can benefit from a financial support for the mobility.

- Mandatory
- ☒ Optional
- △ Not offered in 2023-2024
- Not offered in 2023-2024 but offered the following year
- ⊕ Offered in 2023-2024 but not the following year

LIST OF FOCUSES

You have the choice between the Professional focus and the Research focus.

The '**Professional**' focus (30 credits) revolves on the deepening of the distinctive disciplines of management : Digital Transformation Management, Green Transition Management, Managing Uncertainty and Consulting Project. The courses of this focus are given during the first 6 weeks of each semester during the first annual block (except for specific profiles).

The '**Research**' focus (30 credits) revolves on epistemological and methodological training in management research. The student may also complete a research internship in a research center linked to the Louvain School of Management and do a research paper on the state of the literature and the design of a research project, or a first empirical research project preliminary to the doctorate. The courses of this focus are given during the first 6 weeks of each semester during the first annual block.

- > Professional Focus [en-prog-2023-gest2m-lgest321s]
- > Research Focus [en-prog-2023-gest2m-lgest202a]

The research focus of 30 credits is centered on the epistemological and methodological training for research in management sciences. The student can also have the opportunity to participate to a research internship at a research center linked to the LSM. He may also write a research master's thesis that consists of either a state of literature and the design of a research project, either a first preliminary empirical research in a PhD.

Course prerequisites

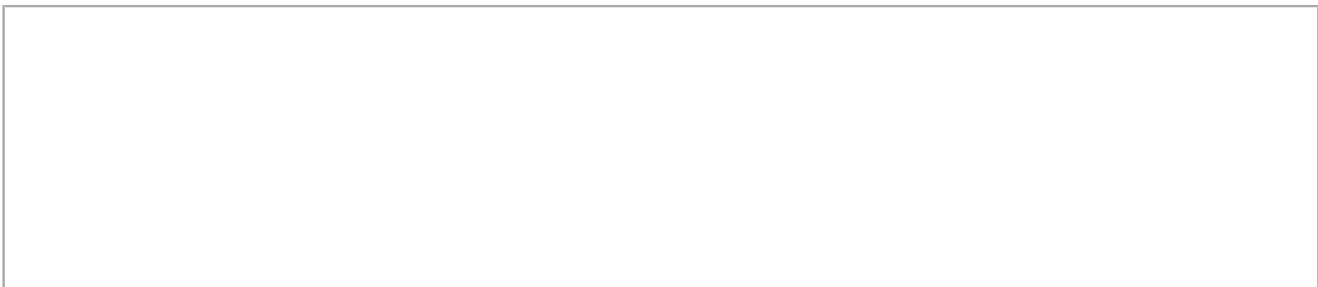

There are no prerequisites between course units (CUs) for this programme, i.e. the programme activity (course unit, CU) whose learning outcomes are to be certified and the corresponding credits awarded by the jury before registration in another CU.

The programme's courses and learning outcomes

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the skills expected of every graduate on completion of the programme. Course unit descriptions specify targeted learning outcomes, as well as the unit's contribution to reference framework of learning outcomes.

Teaching method

The quality of our Master's programme is continuously monitored by external auditors through the EQUIS international accreditation process. In terms of teaching methods, the two main strengths of our programmes are:

- **An education that mixes academic knowledge and professional practice**

Blended training is provided by academics who are top researchers in their fields and professionals, specially selected for their experience and widely renowned expertise. As a result, students are exposed to the latest scientific advances in management studies and their application in business life. Formal teaching is complemented with a hands-on learning experience that students acquire in various ways (group projects in connection with organizations, internship, master thesis). Students can also access a wide array of extra-curricular activities organised by the School's Corporate Unit.

- **A focus on active learning and the development of multidisciplinary skills**

We have created a learning environment that combines a variety of interactive teaching methods: lectures, case studies, group assignments, individual and group projects, problem-solving, flipped classrooms, business games, invited speakers. To optimize the learning experience, we blend theoretical and practical work, hard and soft skills, as well as in-person and online teaching activities. Courses are bundled in modular parts of six weeks to strengthen the acquisition of knowledge and competences. Exams may be organized at the end of each six-week part to complement the continuous assessment (interim tests, individual and group assignments) that is organized during the part.

Evaluation

The evaluation methods comply with the regulations concerning studies and exams (<https://uclovain.be/fr/decouvrir/rgee.html>). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

Because of our emphasis on active learning, most of the assessment is continuous. That is, students complete individual and group assignments during and after the courses. These assignments can take various forms (written reports, oral presentations, problem-solving, projects, videos, debates, etc.). Examinations can complement the assessment and are organized in the continuation of the teaching after each six-week courses' part. The assessment is both formative (by monitoring student learning and providing ongoing feedback) and summative (by evaluating student learning against some benchmark).

The details of the assessment can be found in the description of each course.

Mobility and/or Internationalisation outlook

This Master's programme offers various internationalisation and mobility opportunities that will add value to your curriculum:

1. **A quadrimester abroad** (30 credits) as part of an **exchange programme** (<https://uclovain.be/en/faculties/lsm/erasmus-other-exchanges.html>) in one of the 145 worldwide recognised partner universities in management, some of which are part of the exclusive PIM (Partnership in artner univerP] Tde recognisid exams-
