Course prerequisites

There are no prerequisites between course units (CUs) for this programme, i.e. the programme activity (course unit, CU) whose learning outcomes are to be certified and the corresponding credits awarded by the jury before registration in another CU.

The programme's courses and learning outcomes

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the the skills expected of every graduate on completion of the programme. Course unit descriptions specify targeted learning outcomes, as well as the unit's contribution to reference framework of learning outcomes.

Teaching method

The courses on the programme of the [Master \[120\] in Ethics](#) guarantee students lessons in ethical reflection and train the students in how to acquire the necessary scientific skills for ethical reflection in a specific field. As for the research seminars, they are the place "par excellence" where the student learns how to integrate research work into an academic debate on ethics.

Given that UCLouvain is a complete university which is very up-to-date in ethical research, the students are easily integrated into the activities of the various ethical research bodies in UCLouvain: Centre de philosophie du droit (CPDR), Unité d'éthique biomédicale (EBIM), Chaire Hoover d'éthique économique et sociale (ETES), Centre interdisciplinaire techniques, sciences et sociétés (CITES).

Incidentally, internationalisation is not forgotten, as students can take part of their training away from UCLouvain, either by sharing courses with KU Leuven, or through a stay at a foreign university. Finally, the programme ends with the writing and oral defence of an individual piece of research.

Evaluation

The evaluation methods comply with the regulations concerning studies and exams (<https://uclouvain.be/fr/decouvrir/rgee.html>). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

In the courses and all the more so in the seminars on the master en éthique, students are often evaluated on their individual work. The relatively small class sizes means that teachers can provide follow-up guidance and constructive criticism.

To obtain a student's average, the grades awarded for each course unit are weighted by their respective credits

Mobility and/or Internationalisation outlook

As part of their studies, students enrolled in the [Master \[120\] in Ethics](#) are encouraged to undertake:

- a **study visit** for one term (30 credits) in one of the [many universities](#) (<https://uclouvain.be/fr/facultes/fial/partenaires.html>) with which the School of Philosophy has concluded partnership agreements, in Europe under the Erasmus+ programme, in Switzerland under the SEMP programme, or elsewhere in the world under the FAME/Mercator programme and/or
- a **study visit** for one term (30 credits) in one of the partner universities in Flanders, under the Erasmus Belgica programme and/or
- an **internship** in Belgium or abroad, in preparation for their Master's dissertation.

The School of Philosophy has privileged teaching and research collaborations with the University of Montréal (*Département de philosophie and the Centre de recherche en éthique*).

It is advisable to organise the study visit during the second term of the first year or the first term of the second year.

Furthermore, under the agreement between UCLouvain and KU Leuven, courses may be taken from the [Hooger Instituut voor Wijsbegeerte](#) programme at KU Leuven.
