ROGE2M - Information

Access Requirements

Master course admission requirements are defined by the French Community of Belgium Decree of 7 November 2013 defining the higher education landscape and the academic organisation of courses.

General and specific admission requirements for this programme must be satisfied at the time of enrolling at the university.

Unless explicitly mentioned, the bachelor's, master's and licentiate degrees listed in this table or on this page are to be understood as those issued by an institution of the French, Flemish or German-speaking Community, or by the Royal Military Academy.

In the event of the divergence between the different linguistic versions of the present conditions, the French version shall prevail.

15 to 30 credits of [supplementary classes](#) integrated into the master's programme (consult [Admission and Enrolment Procedures for general registration](#))

Only applicable to graduates of higher education institutions of the French Community of Belgium

Access based on validation of professional experience

> It is possible, under certain conditions, to use one's personal and professional experience to enter a university course without having the required qualifications. However, validation of prior experience does not automatically apply to all courses. Find out more about [Validation of priori experience](#).

Candidates who do not fulfil the abovementioned admission requirements, but who have duly attested significant experience relevant to the field of study in question, may apply for admission to the programme on the basis of an individualised admission procedure.

For more information on the procedure for admission by validation of learning from experience (VAE) in the Faculty of Philosophy, Arts and Letters: <https://uclouvain.be/fr/facultes/fial/valorisation-des-acquis-de-l-experience-vae.html>.

Access based on application

Access based on application : access may be granted either directly or on the condition of completing additional courses of a maximum of 60 ECTS credits, or refused.

Conditions of access based on application 2024-2025 of the Faculty of Philosophy, Arts and Letters are available in [this document](#) (in French).

Specific professional rules

Successful completion of the master's course with **teaching focus** leads to the award of the master's degree with teaching focus and the title of secondary school education specialist.

The [Réforme des Titres et Fonctions](#) ("Titles and Functions Reform"), in force since 1 September 2016, is intended to harmonise the titles, functions and pay scales of basic and secondary education professionals in French Community of Belgium networks.

It also aims to guarantee the priority of preferred titles over minimum titles and to establish a regime for titles in short supply.

AESS holders can learn which functions they can carry out and the pay scales from which they can benefit by [clicking here](#).

The university cannot be held responsible for any problems that students may encounter at a later date with a view to a teaching appointment in the French Community of Belgium.

Teaching method

The study paths offered by the various focuses and optional courses give the student more and more opportunities to "take charge of his training" as well as his gradual choices in working life. The different fields of study in the programme provide a coherent set of courses.

As for interdisciplinary, the student can include in his programme courses from other disciplines (optional). Some focuses, like some course modules: création littéraire, français langue étrangère, are clearly cross-disciplinary (library studies, "communication multilingue en entreprise", etc). In the end, the student's choice (geared towards the programme's interdisciplinary courses) will hold sway.

A second strong point is the variety of teaching strategies (including e-learning) : the use of multimedia for courses in foreign languages, the use of the possibilities offered by Moodle, and the balance between more 'lecture-based teaching and one-to-one student guidance.

Also noteworthy are the different learning situation: individual and group work, seminars and tutorials for the dissertation.

Evaluation

The evaluation methods comply with the regulations concerning studies and exams (<https://uclouvain.be/fr/decouvrir/rgee.html>).
