Teaching method

Interdisciplinarity is at the very heart of the programme, where religions are always thought of in direct association with philosophy, socio-anthropology, psychology, law and theology.

The core course activities provide an introduction to methodology in each of the main disciplines covered by the term 'sciences des religions', the chance to learn a pluridisciplinary method of analysis of religious facts in seminars led by a team of teachers, which are themselves pluridisciplinary. By anchoring religious questions in highly contemporary problems, the course allows students to conduct case studies, and approach issues on a problem-by-problem basis, which involves combining varied types of knowledge and skills, etc.

In the part of the programme dedicated to free choice courses, the student can focus on some disciplines and religions, in order to gain strong expertise in the field as well as the standard of knowledge and skills required to consider embarking on doctoral research.

This Master's programme is unique in French-speaking Belgium in its capacity to bring together the various strands of human sciences in its approach to the religious phenomenon, less in its historical dimension (which, of course, is not excluded) than in the crucial questions that it currently puts to western society. The legal part of the programme in particular provides an approach which is as fundamental as it is innovative.

Evaluation

The evaluation methods comply with the regulations concerning studies and exams (<https://uclouvain.be/fr/decouvrir/rgee.html>). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

The evaluation methods comply with the **regulations concerning studies and exams**. More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

The modes of evaluation are laid out in the syllabus for each activity. Roughly speaking, students are evaluated by written work with formative evaluation or oral exams.

Mobility and/or internationalisation

At the Master's stage, Erasmus exchanges will be encouraged. At regional level, it is possible to select activities in the programmes of the Facultés universitaires Saint-Louis - FUSL, the Académie Louvain, the Université Libre de Bruxelles - ULB (Institut des religions et de la laïcité), the Université de Liège - ULg, the ICHEC Brussels Management School - and the KULeuven.

UCL's faculty of theology is developing a partnership at Master's level with the theology faculties (Protestant and Catholic) from Strasbourg's Université Marc Bloch where the study of religion is granted special attention; it is possible to extend this partnership where religious sciences are concerned. Other partnerships have been developed by the faculties and departments associated with this Master, from which students of religious sciences can benefit.

Mobility and/or Internationalisation outlook

At a national level, master courses may be chosen out of the programs of the Free University Brussels (ULB - Institute of religions and secularism), Liège State University (Ulg), ICHEC -Brussels Management School - and the KULeuven (up to 20 credits).

European Erasmus exchanges (<https://uclouvain.be/fr/facultes/theologie/international-ti.html>) are promoted within the framework of the master in Religious Sciences. The Faculty of Theology (UCLouvain) has organized a partnership with the Protestant and Catholic Faculties of Theology of the University of Strasbourg, where the study of religions is of special interest. An extension of this partnership is possible with regard to Religious Studies. Other partnerships are organized by the associated faculties. Student in Religious Studies may take benefit of all of them.

Certificates
