

SOCA1BA - Introduction

Introduction

The choice of the minor will also facilitate re-orientation when it comes to choosing the master's programme.

The role of the Programme Supervisor and the Study Advisor is important with respect to subject choice (information, advice ...).

Course prerequisites

The **table** below lists the activities (course units, or CUs) for which there are one or more prerequisites within the programme, i.e. the programme CU for which the learning outcomes must be certified and the corresponding credits awarded by the jury before registering for that CU.

These activities are also identified in the **detailed programme**: their title is followed by a yellow square.

Prerequisites and student's annual programme

As the prerequisite is for CU registration purposes only, there are no prerequisites within a programme year. Prerequisites are defined between CUs of different years and therefore influence the order in which the student will be able to register for the programme's CUs.

In addition, when the jury validates a student's individual programme at the beginning of the year, it ensures its coherence, meaning that it may:

- require the student to combine registration in two separate CUs which it considers necessary from a pedagogical point of view.
- transform a prerequisite into a corequisite if the student is in the final year of a degree course.

For more information, please consult the [Academic Regulations and Procedures](https://uclouvain.be/fr/decouvrir/rgee.html) (<https://uclouvain.be/fr/decouvrir/rgee.html>).

The programme's courses and learning outcomes

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the the skills expected of every graduate on completion of the programme. Course unit descriptions specify targeted learning outcomes, as well as the unit's contribution to reference framework of learning outcomes.

SOCA1BA - Information

Access Requirements

- For any secondary school diploma **from a European Union country**, the admission request must contain the equivalence of your diploma or, at the very least, proof of the filing of the equivalence request with the Wallonia-Brussels Federation (French Community

Teaching method

Les cours magistraux visent à transmettre une matière tandis que les séminaires et travaux pratiques requièrent une participation active de l'étudiant. Le programme de bachelier combine de manière évolutive ces deux modes d'enseignement. Il s'agit d'acquérir les connaissances de base et les concepts de la sociologie et de l'anthropologie à la fois à travers les cours, les lectures et les travaux personnels. Dès la première année, les étudiants sont amenés à conduire des enquêtes ou à analyser des données. En deuxième année, les étudiants participent à une activité collective résidentielle sous la forme d'un « séminaire d'exploration socio-anthropologique ».

Evaluation

The evaluation methods comply with the regulations concerning studies and exams (<https://uclouvain.be/fr/decouvrir/rgee.html>). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

Ongoing evaluation : exercices and personal pieces of work.

Exams take both written and oral forms.

Mobility and/or Internationalisation outlook

La mobilité Erasmus est organisée au cours du master.

Possible trainings at the end of the programme

Positioning of the programme within the University cursus

The bachelor's of Sociology and Anthropology opens direct access to the master's of Sociology or the master's of Anthropology, delivered by any university institution within the French-speaking Community in Belgium.

Other studies accessible upon completion of the programme

The bachelor's degree in Sociology and Anthropology entitles access to the masters organised by other Departments of the Faculty of Economic Sciences, Social and Political Sciences or of other Faculties, subject to respect of the conditions and prerequisites specified for these programmes. In the case of lacking credits, these can be made up either by being added to the master's programme (if the number of lacking credits does not surpass 15 credits), or by doing an extra complementary or preparatory year before embarking on the master's programme.
