Access based on validation of professional experience

> It is possible, under certain conditions, to use one's personal and professional experience to enter a university course without having the required qualifications. However, validation of prior experience does not automatically apply to all courses. Find out more about [Validation of priori experience](#).

Entry to all masters (with the exception of Advanced Masters) can be gained through the special procedure for accrediting prior learning

Teaching method

o Methods which reflect the interdisciplinary nature of the course :

there is interdisciplinarity in both the courses on the different fields of political science as well as the area studies

o Variety of teaching strategies (including e-learning) :

- Most of the teaching staff are familiar with new multi-media technology and innovations introduced by the University Teaching Institute (l'Institut de pédagogie universitaire) . The overall rhythm and workload of the programme is carefully coordinated each year.

- The seminars are primarily designed to help students with the methodological structure of their final piece of work.

o Different learning situations :

- the seminars bring together cross-disciplinary elements. The tutoring system helps students to combine the different subjects in order to produce their dissertation.

Evaluation

The evaluation methods comply with the regulations concerning studies and exams (<https://uclouvain.be/fr/decouvrir/rgee.html>). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

It is up to each member of the teaching staff to decide on the most appropriate method(s) of assessment according to the objectives of the course : oral or written examinations, work to be done throughout the year (e.g. reviews of literature, case studies or essays) or exercises.
