ADPU2M - Introduction

Introduction

ADPU2M - Teaching profile

Learning outcomes

1. The Master in Public Administration offers courses based on :

- the analysis of the many different issues faced by institutions and players in the context of public policy;
- the acquisition of methods and skills to deliver effectiveness and efficiency in public sector administration;
- the modernisation and continuous assessment of change in public organizations.

2. In terms of professional training, this Master prepares students to take up various roles in the administration and management of public organizations, both at regional and local level as well as in bodies working in close collaboration with the public sector (e.g. political parties, trades unions and professional organizations). In addition, although the programme is not primarily aimed at the Belgian public sector, it nevertheless offers support to students wishing to prepare for certain entry examinations held by public institutions such as the government recruitment office (SELOR).

3. Finally, this Master gives students the opportunity to develop their individual research skills. They will acquire a rigorous framework for posing questions in a field of their choice (see the options), either in the context of the work placement and the dissertation (professional focus) or the dissertation project which then leads on to a doctorate (research focus).

On successful completion of this programme, each student is able to :

Comme tout diplômé du Master en sciences politiques (et plus particulièrement dans le domaine de l'administration publique) :

- Choisir des informations pertinentes permettant l'analyse et la comparaison de situations politiques.
- Présenter l'information de façon correcte, structurée, claire, précise et argumentée (dont une capacité de rapportage pour des rapports, bilan, note, compte-rendu...).
-

Access based on validation of professional experience

> It is possible, under certain conditions, to use one's personal and professional experience to enter a university course without having the required qualifications. However, validation of prior experience does not automatically apply to all courses. Find out more about [Validation of priori experience](#).

Entry to all Masters (with the exception of Advanced Masters) can be gained through the special procedure for accrediting prior learning and experience known as VAE (validation des acquis de l'expérience).

For further information [VAE au département des Sciences politiques et sociales](#)
