Specific professional rules

Successful completion of the Teacher Training Certificate (upper secondary education) leads to the award of the title of secondary school education specialist.

The [Réforme des Titres et Fonctions](#) ("Titles and Functions Reform"), in force since 1 September 2016, is intended to harmonise the titles, functions and pay scales of basic and secondary education professionals in French Community of Belgium networks.

It also aims to guarantee the priority of preferred titles over minimum titles and to establish a regime for titles in short supply.

AESS holders can learn which functions they can carry out and the pay scales from which they can benefit by [clicking here](#).

The university cannot be held responsible for any problems that students may encounter at a later date with a view to a teaching appointment in the French Community of Belgium.

Teaching method

The programme is divided into various kinds of activities : lectures, seminars in small interdisciplinary or intradisciplinary groups and a variety of teaching practice (observation of classes, 2- or 3-day immersion in an educational institution, teaching practice in pairs and individually in different classes and different types of teaching).

It is particularly important for students, when developing their skills, to be actively involved in realisation and analysis of their periods of teaching practice, in the seminars organised in small groups and general in the individual and group work which forms the basis of various assessments.

The workload involved in the overall programme (especially the 40 hours of teaching practice) is significant and requires real investment throughout the academic year. It cannot be combined with another programme worth more than 30 credits.

Evaluation

The evaluation methods comply with the [regulations concerning studies and exams](#). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".
