Programme structure

This programme which leads to the title of "Bachelor of Engineering Sciences : Bioengineering", is composed of three years of studies. The training programme comprises different types of course activities : lectures, practical exercises, group work, individual work, tutorials, work experience and, of course, personal study.

Each course title is followed by a number indicating the number of hours the course represents per academic year. This number corresponds to lectures, unless a different teaching method (seminars, exercises) is mentioned in the course title. Where course activities (exercises, laboratory work or practical tasks) accompany one or several lectures, these are characterised by a second volume of hours per year. The course timetable is available at the secretary's office of the Faculty.

The number in brackets next to the number of course hours, relates to the total number of credits attributed to the course activity. This unit is a measure of the student's global workload for one year of studies and corresponds to the unit used by the European Credit Transfer System (ECTS). A full study year includes 60 credits. The sign (-) refers to the description of the training activity, available on the web site, when the credits differ for the study years or for the options of the same programme.

Information on credits not indicated on the study programme can be obtained from the secretary's office of the Faculty.

Principal Subjects

- Mathematics, analysis and data-processing
- Sciences and Engineering of Matter and Processes
- Life Sciences
- Earth Sciences and Ecosystems
- Human Sciences

BIR1BA Programme

Detailed programme by subject

- Mandatory
- ⊗ Optional
- △ Not offered in 2024-2025
- ⊙ Not offered in 2024-2025 but offered the following year
- ⊕ Offered in 2024-2025 but not the following year
- △ ⊕ Not offered in 2024-2025 or the following year
- Activity with requisites
- 🌐 Open to incoming exchange students
- 🚫 Not open to incoming exchange students
- [FR] Teaching language (FR, EN, ES, NL, DE, ...)

	Year		
	1	2	3
○ Major (148 credits)			

○ Mathematics, data analysis (27 credits)

○ LBIR1110	Introduction to analysis	Emmanuel Hanert	FR [q1] [30h+30h] [6 Credits] 🌐	X		
○ LBIR1111	Complément d'analyse et d'algèbre	Marino Gran	FR [q2] [30h+30h] [6 Credits] 🌐	X		
○ LBIR1211	Analysis of multivariate functions ■	Emmanuel Hanert	FR [q1] [30h+30h] [5 Credits] 🌐		X	
○ LBIR1212	Probabilities and statistics (I) ■	Patrick Bogaert	FR [q1] [30h+15h] [4 Credits] 🌐		X	
○ LBIR1315	Probability and statistics II ■	Patrick Bogaert	FR [q1] [22.5h+22.5h] [3 Credits] 🌐			X
○ LBIR1351	Introduction to systems analysis ■	Philippe Baret	FR [q1] [10h+20h] [3 Credits] 🌐			X

○ Sciences et ingénierie de la matière et des procédés (46 credits)

○ LBIR1140	Chimie générale 1	Pierre Delmelle (coord.) Charles-André Fustin Michel Ghislain (coord.)	FR [q1] [30h+30h] [6 Credits] 🌐	X		
------------	-----------------------------------	--	---------------------------------	---	--	--

				Year		
				1	2	3
○ LBIR1340	Basis of quantum mechanics and spectroscopy 🇯🇵	Eric Gagneaux (coord.) Xavier Gonze	FR [q2] [22.5h+22.5h] [3 Credits] 🌐 > English-friendly			x
○ LBIR1341	Laboratories, seminars and integrated practice of analytical chemistry					

Course prerequisites

The **table** below lists the activities (course units, or CUs) for which there are one or more prerequisites within the programme, i.e. the programme CU for which the learning outcomes must be certified and the corresponding credits awarded by the jury before registering for that CU.

These activities are also identified **in the detailed programme**: their title is followed by a yellow square.

Prerequisites and student's annual programme

As the prerequisite is for CU registration purposes only, there are no prerequisites within a programme year. Prerequisites are defined between CUs of different years and therefore influence the order in which the student will be able to register for the programme's CUs.

In addition, when the jury validates a student's individual programme at the beginning of the year, it ensures its coherence, meaning that it may:

- require the student to combine registration in two separate CUs which it considers necessary from a pedagogical point of view.
- transform a prerequisite into a corequisite if the student is in the final year of a degree course.

For more information, please consult the [Academic Regulations and Procedures](#).
