> It is possible, under certain conditions, to use one's personal and professional experience to enter a university course without having the required qualifications. However, validation of prior experience does not automatically apply to all courses. Find out more about [Validation of priori experience](#).

Candidates who do not fulfil the abovementioned admission requirements, but who have duly attested significant experience relevant to the field of study in question, may apply for admission to the programme on the basis of an individualised admission procedure.

For more information on the procedure for admission by validation of learning from experience (VAE) in the Faculty of Philosophy, Arts and Letters: <https://uclouvain.be/fr/facultes/fial/valorisation-des-acquis-de-l-experience-vae.html>.

 **Access based on application**

Access based on application : access may be granted either directly or on the condition of completing additional courses of a maximum of 60 ECTS credits, or refused.

 **Admissibility criteria**

A candidate's application will be deemed admissible if it meets all of the following criteria:

- Candidate's diploma issued by an **institution recognized by WHED** (see <https://www.whed.net/home.php>)
- Previous course of study including **at least 3 years of higher education** (equivalent to 180 European credits), leading to an undergraduate degree;
- For holders of a **degree from outside Belgium**:

1. an overall average of at least 60% (12/20) for the entire course of study completed at the home institution and giving access to this program;
2. official attestation of proficiency in language(s) at the required level (see specific entry requirements), to be attached to the application file. The official attestation must be issued by an organization recognized as a full member by ALTE (see <https://alte.org/Our-Full-Members>).

If a document is missing from the online application, it must be justified (see [UCLouvain Enrolment Department's frequently asked questions](#), in particular "[What do I do if my online application asks for a document I don't yet have?](#)")

Applications deemed admissible are forwarded to the Faculty by Enrolment Services. Applications that do not meet these criteria are automatically rejected.

 **Eligibility criteria**

- **Consistency** between the candidate's previous academic career and the prerequisites for the targeted program. The match between the candidate's academic background and the UCLouvain bachelor's degree giving direct access to the master's program need not be perfect, but the skills acquired (see specific access conditions) must be close; Example: for an application for admission to a master's program in modern languages and literature, the candidate's previous training includes courses in languages and literature in both modern languages.
- **Grades** obtained in the program's major disciplines (see specific entry requirements);
- **Arguments** put forward by the applicant in his or her cover letter (training project in line with the program in question, relevance of arguments, coherence between the applicant's application and the program in question, etc.) Example: the language combination

## Teaching method

---

The different paths available to students allow them to shape their own training in line with their skills and interests and, in this way, to have relative autonomy in their training programme. The various different areas of study provide a series of coherent and high quality courses.

Interdisciplinarity is encouraged via the following methods : the student decides which options he will take in the Master (60 credits) (in making this choice, he will be guided by the programme's interdisciplinary courses which complement the more philological part of the training).

Variety of teaching methods (including [e-learning](#)) : use of multi-media for ancient languages.

Range of learning situations : individual and group work, seminars and lectures. Individual guidance for the individual final project (TFE).

## Evaluation

---

***The evaluation methods comply with the [regulations concerning studies and exams](#). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".***

The written and oral exams aim both to measure skills acquired as well as the student's communication skills and know-how. Some subjects, geared towards helping the student develop skills in research and personal criticism, are subject to presentations and discussions spread out over the year (permanent evaluation).

Courses are evaluated according to current university regulations (see General Examination Regulations). Students may find further information on specific evaluation methods in the course descriptions.

To obtain a student's average, the grades awarded for each course unit are weighted by their respective credits

## Mobility and/or Internationalisation outlook

---

The participation in an international mobility scheme is not authorized within the framework of this 1-year master's programme.

Nevertheless, courses in Greek or Latin languages and literatures can be borrowed from the programme of KU Leuven, in line with the UCLouvain-KU Leuven agreement.
