

--

Three subjects (courses) per year are taught in English. The courses are usually taught by faculty members who are native English speakers or who have completed all or part of their university studies in English.

- First year: [Communication Science](#), [Political Science](#), [Geopolitics](#)
- Second year: [Intercultural communication](#), [Economics 1](#), [Economics 2](#)
- Third year: Corporate Communication and Public relations, International Communications, Ethics and the Economy

In addition, students continue to perfect their language skills by taking English and Dutch courses in first, second and third year. These language course units focus on the progressive acquisition of skills for dealing with a variety of situations, particularly in the context of information and communication. They are held in small groups and are aimed at an active approach based on multiple listening comprehension and oral expression exercises.

Furthermore, during the second term of the third year, students may take part in an [Erasmus or equivalent exchange](#) at a partner university whose programmes are taught in a language other than French, with which the faculty has established an agreement. Another option is for students who pass the June exam session to apply for a summer language study grant in Flanders or abroad.

Pursuing a dual bachelor's degree

Our dual bachelor's degrees are one of the special features of UCLouvain Saint-Louis - Bruxelles.

Students can take a second bachelor's degree, in tandem with their main bachelor's degree. This means that they complete their main programme with a minimum of 60 and a maximum of 125 additional credits spread over several years. The additional bachelor's degree can be completed after the main bachelor's degree. A series of courses taken as part of the main programme count towards the additional bachelor's degree and are therefore no longer subject to assessment. The additional bachelor's degree has the same value as the main bachelor's degree and provides immediate access to the corresponding master's degree.

The following additional bachelor's degrees are available:

- [Bachelor in Philosophy \[Dual Bachelor's degree for the holder of a Bachelor's degree and provides immediate access to the Master's degree\]](#)

COAB1BA - Teaching profile

Learning outcomes

Programme structure

The bilingual French-English bachelor's degree in information et communication is a **first-cycle programme** (a 'transition' bachelor's degree), consisting of 180 credits spread over three years (60 credits per year). It prepares students for a number of master's degree programmes in the second cycle in the field of information and communication.

The bachelor's degree programme has a **strong interdisciplinary component**, especially in the first year, for students at the Saint-Louis - Bruxelles campus in information and communication, political science, sociology and anthropology (the year 1 programme includes two course units from each discipline). This first year facilitates reorientations at the beginning of the programme: students can change their orientation in year 2 to one of the other two programmes without having to make up any course units.

Specialisation in information and communication becomes more pronounced as students progress through the bachelor's programme, thanks to an ever-increasing number of specialised course units. **Methodological instruction** (university work, documentary research and the scientific method) is provided throughout the bachelor's degree.

Course prerequisites

The **table** below lists the activities (course units, or CUs) for which there are one or more prerequisites within the programme, i.e. the programme CU for which the learning outcomes must be certified and the corresponding credits awarded by the jury before registering for that CU.

These activities are also identified in the **detailed programme**: their title is followed by a yellow square.

Prerequisites and student's annual programme

As the prerequisite is for CU registration purposes only, there are no prerequisites within a programme year. Prerequisites are defined between CUs of different years and therefore influence the order in which the student will be able to register for the programme's CUs.

In addition, when the jury validates a student's individual programme at the beginning of the year, it ensures its coherence, meaning that it may:

- require the student to combine registration in two separate CUs which it considers necessary from a pedagogical point of view.
- transform a prerequisite into a corequisite if the student is in the final year of a degree course.

For more information, please consult the [Academic Regulations and Procedures](#).

COAB1BA - Information

Access Requirements

- For any secondary school diploma **from a European Union country**, the admission request must contain the equivalence of your diploma or, at the very least, proof of the filing of the equivalence request with the Wallonia-Brussels Federation (French Community of Belgium). For any information relating to obtaining an equivalence, please refer to [the following site](#).
- For any secondary school diploma **from a country outside the European Union**, the admission application must contain the [equivalence of your diploma](#) issued by the Wallonia-Brussels Federation (French Community of Belgium). If you have a restrictive equivalence for the programme of your choice, in addition of it, you **must** have either the [DAES](#) or a certificate of successful completion of the [examination giving access to 1st cycle studies](#) when you submit your application

Access based on validation of professional experience

Admission to undergraduate studies on the basis of accreditation of knowledge and skills obtained through professional or personal experience (Accreditation of Prior Experience)

Subject to the general requirements laid down by the authorities of the higher education institution, with the aim of admission to the undergraduate programme, the examination boards accredit the knowledge and skills that students have obtained through their professional or personal experience.

This experience must correspond to at least five years of documented activity, with years spent in higher education being partially taken into account: 60 credits are deemed equivalent to one year of experience, with a maximum of two years being counted. At the end of an assessment procedure organized by the authorities of the higher education institution, the Examination Board will decide whether a student has sufficient skills and knowledge to successfully pursue undergraduate studies.

After this assessment, the Examination Board will determine the additional courses and possible exemptions constituting the supplementary requirements for the student's admission.

Special requirements to access some programmes

- Admission to **undergraduate studies in engineering: civil engineering and architect**

Pass certificate for the [special entrance examination for undergraduate studies in engineering: civil engineering and architect](#).

Admission to these courses is always subject to students passing the special entrance examination. Contact the faculty office for the programme content and the examination arrangements.

- Admission to **undergraduate studies in veterinary medicine**

[Admission to undergraduate studies in veterinary medicine is governed by the Decree of 16 June 2006 regulating the number of students in certain higher education undergraduate courses \(non-residents\)](#).

- Admission to **undergraduate studies in physiotherapy and rehabilitation**

[Admission to undergraduate studies in physiotherapy and rehabilitation is governed by the Decree of 16 June 2006 regulating the number of students in certain higher education undergraduate courses \(non-residents\)](#).

- Admission to **undergraduate studies in psychology and education: speech and language therapy**

[Admission to undergraduate studies in psychology and education: speech and language therapy is governed by the Decree of 16 June 2006 regulating the number of students in certain higher education undergraduate courses \(non-residents\)](#).

- Admission to **undergraduate studies in medicine and dental science**

[Admission to undergraduate studies in medicine and dental science is governed by the Decree of 16 June 2006 regulating the number of students in certain higher education undergraduate courses \(non-residents\)](#).

Note: students wishing to enrol for a **Bachelor's degree in Medicine** or a **Bachelor's degree in dental science** must first sit an [aptitude test \(fr\)](#).

- Access to **Bachelor of Science in Business Engineering**

The Bachelor of Science in Business Engineering is a joint program organised by KU Leuven and UCLouvain Saint-Louis Bruxelles. In order to register, all candidate must first submit an application via the [KU Leuven admission platform](#). The [conditions of access](#) to this programme are specific.

Graduates of the bachelor's degree in information and communication also have access to the following programmes under certain conditions:

- [Master \[120\] in Multilingual Communication](#)

Other master's degrees are also available on completion of additional courses.

Master's studies can be pursued at UCLouvain, Louvain-la-Neuve campus, or at another university in Belgium or elsewhere in Europe.
