

## HISB1BA - Introduction

### Introduction

---

#### Introduction

The study of history means learning about the past as well as taking a retrospective look at the human adventure, thereby helping us to understand the contemporary world and build the one to come.

The study of history means exploring and understanding periods other than our own. It allows us to learn how to build bridges between generations and cultures, which is a necessary step in the face of global human and environmental challenges.

This implies that students will learn specific ways to formulate a coherent research question, locate and make use of the works and sources available for this purpose, and analyse them by developing a critical and reasoned approach. These different stages of historical work will enable them to master the subject in depth and present it orally or in written form.

#### Your profile

Are you passionate about understanding past and present realities and the connections between them? Do you like to discover new things on your own through research in libraries and archives? Do you consider that acquiring a broad general knowledge is a main objective of your studies? To achieve this, are you able to show rigour, critical thinking and precision? These are just a few of the skills you will use and develop as you study history.

#### Your future job

Historians stand out for their methodical and organised approach to research, their ability to collect, analyse and summarise information, and their refined critical thinking skills. These assets make them ideal candidates for work in:

- education;
- conservation: archives, museums, libraries;
- public administration: international, federal, regional and local;
- research: universities, public and private institutes;
- the socio-cultural sector: exhibitions, cultural centres;
- the media: journalism, cultural communication;
- associations: non-governmental organisations, non-profit associations and other organisations with a social vocation;
- the banking sector;
- the diplomatic service, etc.

#### Your programme

The strengths of the history programme at UCLouvain Saint-Louis - Bruxelles:

- **A solid knowledge of history:** numerous theoretical courses on periods in history or specific themes (history of justice, historical geography, etc.) enable students to gain an in-depth understanding of entire eras of the past, as well as the present.
- **Links to practice**

## HISB1BA - Teaching profile

### Learning outcomes

### Programme structure

---

#### Theoretical knowledge combined with learning about the work of a historian

The bachelor's degree in history at Saint-Louis - Bruxelles combines historical knowledge courses with a hands-on approach to the work of a historian. The Faculty provides students with a background in the various aspects of a historian's profession:

- use of the range of information sources, from the first engraved inscriptions to handwritten texts and digital documents
- research and classification of sources
- critical analysis of records
- production of summaries which meet the requirements of academic writing

The periods of history, from the dawn of humanity to the present time, are approached in such a way as to raise awareness of the various main lines and levels of historical inquiry, such as global history, thematic history and memory-related history.

Reinforced by general courses common to the Faculty of Philosophy, Languages and Letters and Human Sciences, the programme teaches students how to build bridges between generations and cultures, which is a necessary step in the face of global human and environmental challenges.

Teaching is organised according to a progressive model: from fairly general courses in year 1 to increasingly specialised courses. This specialisation is further developed in the master's programme.

#### Minor subjects

Minor subjects are made up of a group of optional courses. The following minor subjects (25 credits: 10 credits in year 2, 15 credits in year 3) are available to students:

- Literature and civilisations
- European studies
- Political science and communications

These minor subjects are aimed at giving students an understanding of other disciplines, and may help them to choose a master's programme.

## HISB1BA - Information

### Access Requirements

*Decree of 7 November 2013 defining the landscape of higher education and the academic organization of studies.*

*The admission requirements must be met prior to enrolment in the University.*

***In the event of the divergence between the different linguistic versions of the present conditions, the French version shall prevail.***

#### SUMMARY

- [General access requirements](#)
- [Specific access requirements](#)
- [Access based on validation of professional experience](#)
- [Special requirements to access some programmes](#)

### General access requirements

Except as otherwise provided by other specific legal provisions, admission to undergraduate courses leading to the award of a Bachelor's degree will be granted to students with one of the following qualifications :

1. A Certificate of Upper Secondary Education issued during or after the 1993-1994 academic year by an establishment offering full-time secondary education or an adult education centre in the French Community of Belgium and, as the case may be, approved if it was issued by an educational institution before 1 January 2008 or affixed with the seal of the French Community if it was issued after this date, or an equivalent certificate awarded by the Examination Board of the French Community during or after 1994;
2. A Certificate of Upper Secondary Education issued no later than the end of the 1992-1993 academic year, along with official documentation attesting to the student's ability to pursue higher education for students applying for a full-length undergraduate degree programme;
3. A diploma awarded by a higher education institution within the French Community that confers an academic degree issued under the above-mentioned Decree, or a diploma awarded by a university or institution dispensing full-time higher education in accordance with earlier legislation;
4. A higher education certificate or diploma awarded by an adult education centre;
5. A pass certificate for one of the [entrance examinations](#) organized by higher education institutions or by an examination board of the French Community; this document gives admission to studies in the sectors, fields or programmes indicated therein;
6. A diploma, certificate of studies or other qualification similar to those mentioned above, issued by the Flemish Community of Belgium, the German Community of Belgium or the Royal Military Academy;
7. A diploma, certificate of studies or other qualification obtained abroad and deemed equivalent to the first four mentioned above by virtue of a law, decree, European directive or international convention;

#### Note:

Requests for equivalence must be submitted to the Equivalence department ([Service des équivalences](#)) of the Ministry of Higher Education and Scientific Research of the French Community of Belgium in compliance with the official deadline.

The following two qualifications are automatically deemed equivalent to the Certificate of Upper Secondary Education (Certificat d'enseignement secondaire supérieur – CESS):

- European Baccalaureate issued by the Board of Governors of a European School,
- International Baccalaureate issued by the International Baccalaureate Office in Geneva.

8. Official documentation attesting to a student's ability to pursue higher education (diplôme d'aptitude à accéder à l'enseignement supérieur - DAES), issued by the Examination Board of the French Community.

### Specific access requirements

- Access to bachelor programmes for candidates of nationality outside the European Union who are not assimilated to Belgian nationals is subject to the following criteria:

•

- For any secondary school diploma **from a European Union country**, the admission request must contain the equivalence of your diploma or, at the very least, proof of the filing of the equivalence request with the Wallonia-Brussels Federation (French Community of Belgium). For any information relating to obtaining an equivalence, please refer to [the following site](#).
- For any secondary school diploma **from a country outside the European Union**, the admission application must contain the [equivalence of your diploma](#) issued by the Wallonia-Brussels Federation (French Community of Belgium). If you have a restrictive equivalence for the programme of your choice, in addition of it, you **must** have either the [DAES](#) or a certificate of successful completion of the [examination giving access to 1<sup>st</sup> cycle studies](#) when you submit your application

## Access based on validation of professional experience

Admission to undergraduate studies on the basis of accreditation of knowledge and skills obtained through professional or personal experience (Accreditation of Prior Experience)

Subject to the general requirements laid down by the authorities of the higher education institution, with the aim of admission to the undergraduate programme, the examination boards accredit the knowledge and skills that students have obtained through their professional or personal experience.

This experience must correspond to at least five years of documented activity, with years spent in higher education being partially taken into account: 60 credits are deemed equivalent to one year of experience, with a maximum of two years being counted. At the end of an assessment procedure organized by the authorities of the higher education institution, the Examination Board will decide whether a student has sufficient skills and knowledge to successfully pursue undergraduate studies.

After this assessment, the Examination Board will determine the additional courses and possible exemptions constituting the supplementary requirements for the student's admission.
