## The programme's courses and learning outcomes

---

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the the skills expected of every graduate on completion of the programme. Course unit descriptions specify targeted learning outcomes, as well as the unit's contribution to reference framework of learning outcomes.

## Teaching method

---

Most courses offered within the Advanced Master in International Law are based on interactive teaching methods. In some of them, students are called upon to read materials beforehand, which enables them to engage with the selected topics and discuss them during the courses.

As the number of students is limited, they have access to a personalized supervision by professors, particularly on the occasion of the preparation of their Master's essay. The latter's subject-matter is determined by each student, in cooperation with one of the professors of the programme.
