Learning to practise law

Tutorials, seminars and practical work complement the knowledge acquired in lectures, and enable small groups to compare the general, abstract nature of the rule of law with real-life situations.

During practical exercises, students take part in mock trials, draw up pleadings, work on finding solutions to real cases, analyse various documents, etc.

The written work which students complete as part of their practical work teaches them to formulate a legal question, find solutions to it by carrying out documentary research and formulate their results appropriately.

In order to equip students as best as possible, expose them to situations and help them carry out practical work in the best possible conditions, the faculty providible, expose theossible
