DROI2M - Introduction

Introduction

Your programme

The master offers:

- a common base of fundamental legal subjects;
- a choice of options during the two years;
- the choice of a professional focus in the second year;
- writing a thesis;
- an internship or an exchange program (in Belgium or abroad).

DROI2M - Teaching profile

Learning outcomes

After a three-year bachelor, the programme in Master en droit has the dual objective of adding to the student's general training by teaching fundamental subjects (core courses) and providing him with specialist training in subjects more closely linked to his future professional career (focuses and optional courses). The student chooses his specialisation from the coherent set of subjects.

The balance between general training and specialised training should provide the student with the opportunity to acquire legal skills of a highly technical level, aided by skills in critical reflection.

The Master's programme is also intended to help students familiarise themselves with the world of work (internship and dissertation), broaden their linguistic skills (English courses and exchanges with KULeuven) and perfect their training abroad (Erasmus exchanges).

On successful completion of this programme, each student is able to :

INEO, INTERDISCIPLINARY PROGRAM IN ENTREPRENEURSHIP

INEO is an option offered in 30 Master's programmes in 9 faculties at UCLouvain. In the Master in Law, you can take it as part of the professional focus: "Business Law". It involves writing an inter-faculty dissertation (as part of a team) on a business start-up project. Access to this option (and to each of the courses) is limited to students selected on the basis of a portfolio. For more information, visit <https://uclouvain.be/fr/etudier/ineo>

Course prerequisites

The **table** below lists the activities (course units, or CUs) for which there are one or more prerequisites within the programme, i.e. the programme CU for which the learning outcomes must be certified and the corresponding credits awarded by the jury before registering for that CU.

These activities are also identified in the **detailed programme**: their title is followed by a yellow square.

Prerequisites and student's annual programme

As the prerequisite is for CU registration purposes only, there are no prerequisites within a programme year. Prerequisites are defined between CUs of different years and therefore influence the order in which the student will be able to register for the programme's CUs.

In addition, when the jury validates a student's individual programme at the beginning of the year, it ensures its coherence, meaning that it may:

- require the student to combine registration in two separate CUs which it considers necessary from a pedagogical point of view.
- transform a prerequisite into a corequisite if the student is in the final year of a degree course.

For more information, please consult the [Academic Regulations and Procedures](#).

The programme's courses and learning outcomes

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the skills expected of every graduate on completion of the programme. Course unit descriptions specify targeted learning outcomes, as well as the unit's contribution to reference framework of learning outcomes.
