GEHM2M - Introduction

Introduction

2.3. Articuler des savoirs issus du management avec d'une part, des savoirs issus d'autres domaines scientifiques et d'autre part, la pratique professionnelle.

2.4. Activer et appliquer ces savoirs à bon escient face à un problème concret.

3.

Appliquer une démarche scientifique

Analyser et résoudre des problèmes et des situations pluridisciplinaires concrets et complexes de management selon une approche scientifique et systémique.

3.1. Mener un raisonnement analytique clair et structuré en appliquant et, en adaptant si nécessaire, des cadres conceptuels et des modèles scientifiquement fondés pour décrire et analyser un problème concret.

3.2. Collecter, sélectionner et analyser les informations pertinentes selon des méthodes rigoureuses et appropriées.

3.3. Penser le problème selon une approche systémique et globale : percevoir les différents éléments de la situation, leurs interactions dans une approche dynamique, les relier à leur pratique professionnelle.

3.4. Synthétiser avec discernement les éléments essentiels de la situation, faire preuve de recul critique afin de poser un diagnostic et de

Course prerequisites

The **table** below lists the activities (course units, or CUs) for which there are one or more prerequisites within the programme, i.e. the programme CU for which the learning outcomes must be certified and the corresponding credits awarded by the jury before registering for that CU.

These activities are also identified **in the detailed programme**: their title is followed by a yellow square.

Prerequisites and student's annual programme

As the prerequisite is for CU registration purposes only, there are no prerequisites within a programme year. Prerequisites are defined between CUs of different years and therefore influence the order in which the student will be able to register for the programme's CUs.

In addition, when the jury validates a student's individual programme at the beginning of the year, it ensures its coherence, meaning that it may:

- require the student to combine registration in two separate CUs which it considers necessary from a pedagogical point of view.
- transform a prerequisite into a corequisite if the student is in the final year of a degree course.

For more information, please consult the [Academic Regulations and Procedures](#).

The programme's courses and learning outcomes

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the skills expected of every graduate on completion of the programme. Course unit descriptions specify targeted learning outcomes, as well as the unit's contribution to reference framework of learning outcomes.

Access Requirements

Master course admission requirements are defined by the French Community of Belgium Decree of 7 November 2013 defining the higher education landscape and the academic organisation of courses.

General and specific admission requirements for this programme must be satisfied at the time of enrolling at the university.

Unless explicitly mentioned, the bachelor's, master's and licentiate degrees listed in this table or on this page are to be understood as those issued by an institution of the French, Flemish or German-speaking Community, or by the Royal Military Academy.
