

DROI2M - Introduction

Introduction

Your programme

The master offers:

- a common base of fundamental legal subjects;
- a choice of options during the two years;
- the choice of a professional focus in the second year;
- writing a thesis;
- an internship or an exchange program (in Belgium or abroad).

DROI2M - Teaching profile

Learning outcomes

After a three-year bachelor, the programme in Master en droit has the dual objective of adding to the student's general training by teaching fundamental subjects (core courses) and providing him with specialist training in subjects more closely linked to his future professional career (focuses and optional courses). The student chooses his specialisation from the coherent set of subjects.

The balance between general training and specialised training should provide the student with the opportunity to acquire legal skills of a highly technical level, aided by skills in critical reflection.

- the interdisciplinary business creation programme; or
- an exchange stay; or
- courses taught by foreign professors.

Course prerequisites

The **table** below lists the activities (course units, or CUs) for which there are one or more prerequisites within the programme, i.e. the programme CU for which the learning outcomes must be certified and the corresponding credits awarded by the jury before registering for that CU.

These activities are also identified **in the detailed programme**: their title is followed by a yellow square.

Prerequisites and student's annual programme

As the prerequisite is for CU registration purposes only, there are no prerequisites within a programme year. Prerequisites are defined between CUs of different years and therefore influence the order in which the student will be able to register for the programme's CUs.
