MINSPOL - Teaching profile

Learning outcomes

To give the student a better understanding of " politics ", through an introductory course covering the three core dimensions of politics (studied in greater depth in the baccalaureate in political science) :

- the way the state and its various institutions are run, the various actors and groups who compete to direct the running of public affairs, the attitudes and behavior of citizens, both in Belgium and in a comparative fashion;
- the major developments in international relations and institutions;
- public action : the role of public administration, public policy, relations between those in administration and citizens, the way public action is assessed

On successful completion of this programme, each student is able to :

1. Maîtriser, avec la rigueur exigée par les sciences politiques, les fondements théoriques (connaissances, concepts, outils, ...) qui constituent les prérequis indispensables dans une perspective de (ré)orientation vers le master en sciences politiques.

2. S'approprier et maîtriser les fondements de la démarche de recherche scientifique (méthodologie de recherche) spécifique aux sciences politiques, prérequis indispensables dans une perspective de (ré)orientation vers le master en sciences politiques.

3. Faire preuve d'une capacité d'un mode de raisonnement spécifique aux sciences politiques avec rigueur.

4. Appréhender, questionner, analyser, discuter et résoudre une problématique des sciences politiques, en mobilisant les fondements disciplinaires et méthodologiques pertinents.

5. Développer un angle de lecture et une analyse critique et réflexive spécifiques aux sciences économiques
