

GEST2M - Teaching profile

Learning outcomes

The Master in Management prepares the graduate to meet the challenge of ***becoming a socially responsible professional with a transversal approach to the management professions.***

The **Master in Management** is a programme that develops the transversal skills and expertise necessary for management functions in public or private, national or international, commercial or non-commercial organisations.

- 3.1. Conduct a clear, structured, analytical reasoning by applying, and eventually adapting, scientifically based conceptual frameworks and models, to define and analyze a problem.
- 3.2. Collect, select and analyze relevant information using rigorous, advanced and appropriate methods.
- 3.3. Consider problems using a systemic and holistic approach: recognize the different aspects of the situation and their interactions in a dynamic process.
- 3.4. Perceptively synthesize the essential elements of a situation, demonstrating a certain conceptual distance, to diagnose and identify pertinent conclusions.
- 3.5. Produce, through analysis and diagnosis, implementable solutions in context and identify priorities for action.

4. Innovation ad Entrepreneurship: Innovate, initiate and lead change.

- 4.1. Identify new opportunities, propose creative and useful ideas in situations that require new strategic approaches, break with existing models and paradigms, promote progress and change.
- 4.2. Initiate, develop and implement ideas around a new product, service, process or organizational structure, having evaluated the risks and remain pragmatic.
- 4.3. Integrate, collaborate and actively drive forward collective actions for change, and diffuse for social awareness.
- 4.4. Reflect on and improve the content, processes and goals of professional practices.

5. Work effectively in an international and multicultural environment: Work as an interface between stakeholders with different rationales, belief systems, training, nationalities, cultures ...

- 5.1. Understand the inner workings of an organization: develop a global approach and integrate the internal logic used, within the organization.
- 5.2. Position and understand the functioning of an organization, in its local and international socio-economic dimensions and identify the associated strategic issues and operational decisions.
- 5.3. Understand and establish their own role and scope for action, in the overall operation of the organization, while liaising with the various internal and external stakeholders.

6. Teamwork and leadership: Integrate and work in a team, exercise enlightened leadership within the group.

- 6.1. Work in a team: join in and collaborate with team members. Be open and take into consideration the different points of view and ways of thinking, manage differences and conflicts constructively, accept diversity.
- 6.2. Work in a team: join in and collaborate with team members. Be open and take into consideration the different points of view and ways of thinking, manage differences and conflicts constructively, accept diversity.

7. Project Management: Define and manage a project to completion, taking into account the objectives, resources and constraints that characterize the project environment.

- 7.1. Analyse a project within its environment and define the expected outcomes: identify what is at stake, the required outcomes and the environmental constraints; clearly define the project objectives and associate the performance indicators.
- 7.2. Organize, manage and control the process: structure and schedule the tasks, identify and allocate human and material resources, coordinate, delegate and supervise the tasks; take into account the anticipated constraints and risks.
- 7.3. Make decisions and take responsibility for them in an uncertain world: take initiatives and act, anticipate and be proactive, show discernment and good judgment and be prepared to make quick decisions, taking into account multiple factors and uncertainties; accept the risks and consequences of decisions.

8. Communication and Interpersonal Skills: Communicate, converse effectively and convincingly with the stakeholders.

- 8.1. Express a clear and structured message, both orally and in writing in their mother tongue, in English and ideally, in a third language, adapted to the audience and using context specific communication standards.
- 8.2. Interact and discuss effectively and respectfully with diverse stakeholders (supervisors, peers, colleagues, clients...) in face-toface

LIST OF FOCUSES

You have the choice between the Professional focus and the Research focus.

The '**Professional**' focus (30 credits) revolves on the deepening of the distinctive disciplines of management : Digital Transformation Management, Green Transition Management, Managing Uncertainty and Consulting Project. The courses of this focus are given during the first 6 weeks of each semester during the first annual block (except for specific profiles).

The '**Research**' focus (30 credits) revolves on epistemological and methodological training in management research. The student may also complete a research internship in a research center linked to the Louvain School of Management and do a research paper on the state of the literature and the design of a research project, or a first empirical research project preliminary to the doctorate. The courses of this focus are given during the first 6 weeks of each semester during the first annual block.

Teaching method

The quality of our Master's programme is continuously monitored by external auditors through the EQUIS international accreditation process. In terms of teaching methods, the two main strengths of our programmes are:

- **An education that mixes academic knowledge and professional practice**

Blended training is provided by academics who are top researchers in their fields and professionals, specially selected for their experience and widely renowned expertise. As a result, students are exposed to the latest scientific advances in management studies and their application in business life. Formal teaching is complemented with a hands-on learning experience that students acquire in various ways (group projects in connection with organizations, internship, master thesis). Students can also access a wide array of extra-curricular activities organised by the School's Corporate Unit.

- **A focus on active learning and the development of multidisciplinary skills**

We have created a learning environment that combines a variety of interactive teaching methods: lectures, case studies, group assignments, individual and group projects, problem-solving, flipped classrooms, business games, invited speakers. To optimize the learning experience, we blend theoretical and practical work, hard and soft skills, as well as in-person and online teaching activities. Courses are bundled in modular parts of six weeks to strengthen the acquisition of knowledge and competences. Exams may be organized at the end of each six-week part to complement the continuous assessment (interim tests, individual and group assignments) that is organized during the part.

Evaluation

The evaluation methods comply with the regulations concerning studies and exams. More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

Because of our emphasis on active learning, most of the assessment is continuous. That is, students complete individual and group assignments during and after the courses. These assignments can take various forms (written reports, oral presentations, problem-solving, projects, videos, debates, etc.). Examinations can complement the assessment and are organized in the continuation of the teaching after each six-week courses' part. The assessment is both formative (by monitoring student learning and providing ongoing feedback) and summative (by evaluating student learning against some benchmark).

The details of the assessment can be found in the description of each course.

Mobility and/or Internationalisation outlook

This Master's programme offers various internationalisation and mobility opportunities that will add value to your curriculum:

1. A **quadrimester abroad** (30 credits) as part of an **exchange programme** in one of the 145 worldwide recognised partner universities in management, some of which are part of the exclusive PIM (Partnership in International Management) network, have accreditations such as EQUIS,...
2. A **quadrimester in Flanders** (30 credits) as part of the **Erasmus Belgica** programme, at one of the 3 recognised partner universities in management.
3. The exclusive and unique opportunity in Belgium to follow the **prestigious Master's in International Management** organised by the **CEMS** network.
4. The opportunity to follow the **annual block 2 abroad** as part of the **'IB' International Business** programme, which includes a quadrimester abroad as part of an exchange programme at a partner university and a six-month work placement in a company outside Europe.
5. The possibility of acquiring **two Master's degrees** by combining a full year at LSM (UCLouvain) and another full year at a partner
