Course prerequisites

The **table** below lists the activities (course units, or CUs) for which there are one or more prerequisites within the programme, i.e. the programme CU for which the learning outcomes must be certified and the corresponding credits awarded by the jury before registering for that CU.

These activities are also identified **in the detailed programme**: their title is followed by a yellow square.

Prerequisites and student's annual programme

As the prerequisite is for CU registration purposes only, there are no prerequisites within a programme year. Prerequisites are defined between CUs of different years and therefore influence the order in which the student will be able to register for the programme's CUs.

In addition, when the jury validates a student's individual programme at the beginning of the year, it ensures its coherence, meaning that it may:

- require the student to combine registration in two separate CUs which it considers necessary from a pedagogical point of view.
- transform a prerequisite into a corequisite if the student is in the final year of a degree course.

For more information, please consult the [Academic Regulations and Procedures](#).

- For any secondary school diploma **from a European Union country**, the admission request must contain the equivalence of your diploma or, at the very least, proof of the filing of the equivalence request with the Wallonia-Brussels Federation (French Community of Belgium). For any information relating to obtaining an equivalence, please refer to [the following site](#).
- For any secondary school diploma **from a country outside the European Union**, the admission application must contain the [equivalence of your diploma](#) issued by the Wallonia-Brussels Federation (French Community of Belgium). If you have a restrictive equivalence for the programme of your choice, in addition of it, you **must** have either the [DAES](#) or a certificate of successful completion of the [examination giving access to 1st cycle studies](#) when you submit your application

Access based on validation of professional experience

Admission to undergraduate studies on the basis of accreditation of knowledge and skills obtained through professional or personal experience (Accreditation of Prior Experience)

Subject to the general requirements laid down by the authorities of the higher education institution, with the aim of admission to the undergraduate programme, the examination boards accredit the knowledge and skills that students have obtained through their professional or personal experience.

This experience must correspond to at least five years of documented activity, with years spent in higher education being partially taken into account: 60 credits are deemed equivalent to one year of experience, with a maximum of two years being counted. At the end of an assessment procedure organized by the authorities of the higher education institution, the Examination Board will decide whether a student has sufficient skills and knowledge to successfully pursue undergraduate studies.

After this assessment, the Examination Board will determine the additional courses and possible exemptions constituting the supplementary requirements for the student's admission.

Special requirements to access some programmes

- Admission to **undergraduate studies in engineering: civil engineering and architect**

Pass certificate for the [special entrance examination for undergraduate studies in engineering: civil engineering and architect](#).

Admission to these courses is always subject to students passing the special entrance examination. Contact the faculty office for the programme content and the examination arrangements.

Note: students wishing to enrol for a **Bachelor's degree in Medicine** or a **Bachelor's degree in dental science** must first sit an [aptitude test \(fr\)](#).

- Access to **Bachelor of Science in Business Engineering**

The Bachelor of Science in Business Engineering is a joint program organised by KU Leuven and UCLouvain Saint-Louis Bruxelles. In order to register, all candidate must first submit an application via the [KU Leuven admission platform](#). The [conditions of access](#) to this programme are specific.

Teaching method

Courses, seminars

Teaching methods vary according to the content and objectives of the course or seminar. They may include: presentations followed by discussions and question and answer sessions between the course lecturer and students; student presentations; or lectures followed by discussions. Specialised courses are taught in small groups, and the teaching staff are composed of lecturer-researchers who are available to students.

Being located in Brussels means that students have the opportunity to access major library collections and archives, which are essential in learning about the work of a historian. The programme also includes a practical introduction to the use of non-textual sources, such as images, monuments and historic sites.

Methodological assistance

UCLouvain Saint-Louis - Bruxelles places great importance on educational support for all bachelor's programmes. The Academic Guidance Service (AGS) offers a range of learning support activities and is available to meet students who wish to do so.

Evaluation

The evaluation methods comply with the [regulations concerning studies and exams](#). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

Examinations are held in January, June and September. First-year students who do not achieve passing grades in the January session have up to two opportunities to retake specific examinations, in June and/or September. In the second and third years, students have two opportunities during the academic year to take their exams.

Assessment can be written, oral or based on the presentation of a work. Specific courses and practical seminars require active participation, which may be assessed. Assessment procedures are specified in the course descriptions.

Mobility and/or Internationalisation outlook

Exchange programmes

Students can take part in an exchange programme during the first term of the third year. Selection is based on credits already earned, marks and motivation.

Three types of exchange are available:

1. **Erasmus exchanges** with universities in European Union countries
2. **Erasmus Belgica exchanges** with Dutch-language Belgian universities
3. **exchanges with universities outside Europe.**

Find out more about the [destinations](#).

Language study grants

Students who have submitted a motivated request and have obtained sufficient marks in their June exams can obtain a grant for taking language courses in a European country during a holiday period. The proposed destinations include Spain, Italy, Germany, the UK and the Netherlands. The grant covers up to half the cost of the language course and accommodation.

Find out more about the [language stays and study grants](#).

Possible trainings at the end of the programme

The bachelor's degree in history gives direct access to the master's degree in history (120 and 60) organised under the Fédération Wallonie-Bruxelles.
