TEACHING FOCUS [30.0]

IMPORTANT NOTE: In accordance with article 138 para. 4 of the decree of 7 November 2013 concerning higher education and the academic organisation of studies, teaching practice placements will not be assessed in the September session. Students are required to make every effort to successfully complete the teaching practice in the June session, subject to having to retake the year.

The teaching focus is concerned with preparation for teaching at the higher levels of secondary education.

The programme is designed to develop the following skills :

- design, planning and assessment of practice ;
- ability to assess practices and their context ;
- understanding of the educational institution, its setting and players.

Three kinds of activities are involved :

- teaching practice at the higher levels of secondary education (60 hours)
- seminars ;
- lectures.

They are divided into two categories:

- teaching practice, multidisciplinary courses and seminars, common to all subjects. They have the code LAGRE (13 credits);
- subject-based teaching practice, courses and seminars (17 credits).

The teaching focus of the 120 credit Master's degree includes the training which leads to the qualification for teaching in secondary education (Agrégation de l'enseignement secondaire supérieur – AESS) (300 hours - 30 credits), in accordance with the Decrees of 8 February 2001 and that of 17 December 2003 (concerning the basis of neutrality) relating to the initial training of teachers at the higher levels of secondary education in the French Community in Belgium.

These 30 credits also make up the AESS programme in Ancient Languages and Literatures: Classics which can be taken after a 60 credit or a 120 credit Master's degree. In practical terms, successful completion of the Master's degree with the teaching focus leads also to the award of professional status as a secondary education teacher. Assessment of the skills in the AESS programme is spread over the 2 blocks of the Master's degree.

Students may if they wish combine this focus with an Erasmus or Mercator exchange which must take place either during the 2nd semester of the first bloc or the 1st semester of the second bloc. All courses for the teaching focus must, however, be taken at UCLouvain.

OPTION IN SUBALTERNITIES AND POSTCOLONIAL CRITIQUES: HISTORY, WORLD AND SOCIETIES [15.0]

This option aims to deepen the study and practice of critical decentring in history. The aim is not only to mobilise epistemological frameworks from other social science disciplines, but also to train in the work of historians who question the past in an inclusive and decentred manner, and who interrogate systems of power and relations of domination and dependence (ethnic, economic, political, cultural, gender, religious, etc.).

Supplementary classes

To access this Master, students must have a good command of certain subjects. If this is not the case, in the first annual block of their Masters programme, students must take supplementary classes chosen by the faculty to satisfy course prerequisites.

What is a preparatory module?

It is a set of supplementary classes (courses, practical works, seminars, etc.) from the first cycle (see the non-exhaustive list below).

Course prerequisites

The **table** below lists the activities (course units, or CUs) for which there are one or more prerequisites within the programme, i.e. the programme CU for which the learning outcomes must be certified and the corresponding credits awarded by the jury before registering for that CU.

These activities are also identified **in the detailed programme**: their title is followed by a yellow square.

Prerequisites and student's annual programme

As the prerequisite is for CU registration purposes only, there are no prerequisites within a programme year. Prerequisites are defined between CUs of different years and therefore influence the order in which the student will be able to register for the programme's CUs.

In addition, when the jury validates a student's individual programme at the beginning of the year, it ensures its coherence, meaning that it may:

- require the student to combine registration in two separate CUs which it considers necessary from a pedagogical point of view.
- transform a prerequisite into a corequisite if the student is in the final year of a degree course.

For more information, please consult the [Academic Regulations and Procedures](#).

Specific professional rules

Successful completion of the master's course with **teaching focus** leads to the award of the master's degree with teaching focus and the title of secondary school education specialist.

The [Réforme des Titres et Fonctions](#) ("Titles and Functions Reform"), in force since 1 September 2016, is intended to harmonise the titles, functions and pay scales of basic and secondary education professionals in French Community of Belgium networks.

It also aims to guarantee the priority of preferred titles over minimum titles and to establish a regime for titles in short supply.

AESS holders can learn which functions they can carry out and the pay scales from which they can benefit by [clicking here](#).

The university cannot be held responsible for any problems that students may encounter at a later date with a view to a teaching appointment in the French Community of Belgium.

Teaching method

The core courses in the master 120 give courses in research techniques, the scientific communication of historical knowledge and the epistemological approach to history, as well as interactive training from files covering the different historical periods in the field 'governance and societies'.

A wide range of options courses helps the student acquire more depth in the knowledge acquired on the bachelor and begin an interdisciplinary approach.

A special place is reserved for the seminar (10 credits) requiring a lot of research in libraries and in archiving centres, as well as a lot of work in documentary criticism and preparing oral and written summaries.

The masters dissertation must be personal work based on first hand sources, where the student uses the skills acquired in his training. This work is supported by the supervisor and evaluated, at the end of the first bloc, in terms of the detection and critical presentation of the sources and work, and the methodological approach to the subject.

In the professional focus "History. Societies, economies and civilizations", the option is given to focus on case studies. The three other professional focuses include visits and internships in the world of work.

Finally, through its pedagogical options, the programme gives foreign students the chance to acquaint themselves with new research fields and methods, in close contact with the sources.

Evaluation

The evaluation methods comply with the [regulations concerning studies and exams](#). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

Written and oral exams aim to measure the level of acquisition and grasp of concepts, theories, basic data and know-how in the different disciplines concerned.

Exercises, seminars and internships (internal or external to UCLouvain) are subject to continuous assessment.

At the end of the first bloc, an evaluation will assess the two preliminary stages of the dissertation (heuristic and methodological approaches to an academic subject). At the end of the level, the dissertation is marked by the supervisor and two readers.

To obtain a student's average, the grades awarded for each course unit are weighted by their respective credits.
