It comprises 160 credits of general training and a 20-credit opening or in-depth option. The bachelor's program has two main components: (1) general training in the humanities; (2) methodological, disciplinary and practical training in the Germanic language (from among German, English and Dutch) and the Romance language (from among French, Spanish and Italian [German-Italian and Dutch-Italian combinations are not organized]). The choice of opening or deepening options is linked to the general training, while enabling students to envisage future training (in particular the link with the 2nd cycle) or even reorientation at the end of the first cycle.

⌘ Option in Environmental humanities

Our societies are currently undergoing an unprecedented ecological and social crisis. This option aims to provide tools for understanding environmental issues with a focus on two dimensions. Firstly, it involves developing a critical analysis of discourses and practices that involve paradigms at the root of current problems. This critical analysis will draw on what is traditionally referred to as the humanities (philosophy, arts, literature, history). Secondly, it aims to highlight the power of creation in the study of literary and artistic expressions. These are capable of addressing the representational deficit that affects the perception of the crises we are facing and of opening up alternatives.
