Teaching method

The programme offers, in one year, a sound initiation to a scientific approach to linguistics and literature. It will also help the student to develop knowledge, know-how and communication skills in Germanic languages.

Evaluation

The evaluation methods comply with the [regulations concerning studies and exams](#). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

Depending on the nature of the course and the teaching methods, the evaluation will take different forms. Some courses will involve oral and/or written evaluations (held during one of the three exam sessions: January – June – August/September), whilst the evaluation of seminars will involve more substantial student participation as well as assessment of individual course work. Evaluation methods will be explained at the beginning of each course.

Those exams relating to courses on communication skills will evaluate the student's level, i.e. the practical use of the language in relevant situations.

Teaching methods are evaluated in accordance with the current University regulations (see General regulations concerning examinations). Students may also find additional information regarding the evaluation of courses in the course description.

To obtain a student's average, the grades awarded for each course unit are weighted by their respective credits

Mobility and/or Internationalisation outlook

The participation in an international mobility scheme is not authorized within the framework of this 1-year master's programme.
