MINFARM - Introduction

Introduction

MINFARM - Teaching profile

Learning outcomes

The teaching committee of the Ecole de Pharmacie offers to students other than those enrolled on the baccalaureate in pharmaceutical science, a minor in the science of medicine.

The minor, which is run on the UCL-Brussels site, gives students from other courses the opportunity familiarize themselves with the world of medicine, although it does not give access to the master's course.

The minor encompasses a coherent selection of courses amounting to 30 credits and examines natural and synthetic medicine: design, structure, general properties and development in the body. It includes theoretical and practical training and is suggested for non-pharmacy students who would like to acquire general training in medicine.

THE PROGRAMME'S COURSES AND LEARNING OUTCOMES

MINFARM - Information

Access Requirements

Access to the minor in the science of medicine is limited to students who have already reached the required level in chemistry and biology.

A file listing the credits acquired and an application letter should be sent to the admissions committee of the Ecole de pharmacie, via the secretariat (celis@sfar.ucl.ac.be/UCL73.00, Av. Mounier, 73 at 1200 Bruxelles), which will judge the suitability of the application.

Evaluation

The evaluation methods comply with the [regulations concerning studies and exams](#). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

Possible trainings at the end of the programme

The minor in the science of medicine does not give access to the master's in pharmaceutical science.
