Art. 112. of the "Décret définissant le paysage de l'enseignement supérieur et l'organisation académique des études" :

§ 1. In accordance with the general requirements established by the academic authorities, students who have:

1. a master's degree;
2. an academic degree similar to the one mentioned in the preceding paragraph awarded by a higher education institution in the Flemish Community or the German-speaking Community, or by the Royal Military Academy, by virtue of a decision of the academic authorities and in accordance with any additional requirements they may establish;
3. a foreign academic degree deemed equivalent to the one mentioned in paragraph 1, in accordance with this Decree, a European directive, an international convention or other legislation, in accordance with the same requirements.

The additional admission requirements referred to in paragraph 2 are intended to ensure that the student has acquired the knowledge and skills required for the studies in question. When the additional admission requirements consist of one or more additional course units, these may not represent more than 60 additional credits for the student, taking into account all the credits that he or she may otherwise use for admission. These course units are part of the student's study programme.

§ 2. In accordance with the general requirements established by the academic authorities, a student who holds a title, diploma, degree or certificate of higher education, in the French Community or outside it, which does not grant him or her eligibility for admission to a specialised master's course by virtue of the preceding paragraph, may nevertheless be admitted by the jury of the course in question, in accordance with the additional requirements that it establishes, if the totality of the higher education that he or she has completed or the expertise that he or she has acquired is valued by the jury to be at least 240 credits.

§ 3. By way of derogation from these general requirements, the academic authorities may also admit to a specialised master's course holders of a title, diploma, degree or certificate awarded outside the French Community which, in that system of origin, grants direct eligibility for postgraduate studies, even if the studies sanctioned by these credentials are not organised into distinct degree courses or within a time period of at least five years.

## Teaching method

---

Students on this programme must do a notarial work placement with a public notary who can act as their placement supervisor who either is on the list of public notaries approved by the Committee for the Master in Public Notary Law, or, having been chosen by a student, is approved by the Committee.

The objectives of the placement are to :

- complete and deepen training at Master level ;
- form a connection between teaching and practice, particularly through the examination of different kinds of cases and actions covered in class ;
- maintain the links between the different subjects taught ;
- enable students to carry out research required by the lecturers ;
- help the dissertation ;
- enable students to appreciate the human situations which notaries have to deal with in their daily activities.

The placement is therefore a learning activity which draws on the syllabus in such a way that classes, work and placement are all closely linked.

during their placement, both in understanding how legal rules are applied in practice and to bring together practical experience which sheds light on the theory.

The placement takes place at the beginning of the academic year and ends with the Easter holidays. It lasts for 75 working days, on Wednesdays, Thursdays and Fridays with a break for the Easter holidays and official holidays.

Students on the Master programme may be exempted from the placement if they can demonstrate previous or current activities or

them, on one hand, to make the links between each of the courses and the practice of law; dissertation drawing on their relevant professional activity or experience.

## Evaluation
