Learning outcomes

The Advanced Master in Public Notary Law enables those who have gained the Belgian 'licence' degree or Master in Law to further their training in the specific areas related to the profession of a public notary and the requirements of the law on public notaries.

The Advanced Master in Public Notary law is therefore designed to provide students with :

- the necessary training to go on to work as public notaries ;
- the necessary training to go on to work as public notaries' assistants ;
- the necessary training for those who wish to acquire specialized training in the subjects relating to inheritance law in the widest sense of the term.

There are two reasons for offering an Advanced Master in Public Notary Law : first, the law requires that the profession can only be exercised by those who have obtained the Belgian degree of 'licence' in Public Notary Law ; second, special training is needed to carry out the activities of a public notary.

The Advanced Master Public Notary Law is therefore a condition of entry to the profession of public notary.

Article 35 of the Ventôse law, as amended by the law of 4 May 1999, stipulates that in order to be nominated as a candidate for a public notary, a degree in public notary law is necessary.

Programme structure

The programme is made up of nine compulsory courses and a final assignment. A work placement, which puts into practice the subjects that have been taught, completes the training.

Art. 112. of the "Décret définissant le paysage de l'enseignement supérieur et l'organisation académique des études" :

§ 1. In accordance with the general requirements established by the academic authorities, students who have:

1. a master's degree;
2. an academic degree similar to the one mentioned in the preceding paragraph awarded by a higher education institution in the Flemish Community or the German-speaking Community, or by the Royal Military Academy, by virtue of a decision of the academic authorities and in accordance with any additional requirements they may establish;
3. a foreign academic degree deemed equivalent to the one mentioned in paragraph 1, in accordance with this Decree, a European directive, an international convention or other legislation, in accordance with the same requirements.

The additional admission requirements referred to in paragraph 2 are intended to ensure that the student has acquired the knowledge and skills required for the studies in question. When the additional admission requirements consist of one or more additional course units, these may not represent more than 60 additional credits for the student, taking into account all the credits that he or she may otherwise use for admission. These course units are part of the student's study programme.

§ 2. In accordance with the general requirements established by the academic authorities, a student who holds a title, diploma, degree or certificate of higher education, in the French Community or outside it, which does not grant him or her eligibility for admission to a specialised master's course by virtue of the preceding paragraph, may nevertheless be admitted by the jury of the course in question, in accordance with the additional requirements that it establishes, if the totality of the higher education that he or she has completed or the expertise that he or she has acquired is valued by the jury to be at least 240 credits.

§ 3. By way of derogation from these general requirements, the academic authorities may also admit to a specialised master's course holders of a title, diploma, degree or certificate awarded outside the French Community which, in that system of origin, grants direct eligibility for postgraduate studies, even if the studies sanctioned by these credentials are not organised into distinct degree courses or within a time period of at least five years.
