Throughout the Bachelor programme, many academic **visits, trips and concerts** enable students to reinforce on the ground the knowledge they have acquired from the course. These trips are organised by the teaching team in relation to the subjects covered and in a progressive way.

Certain courses also make use of **e-learning** or online learning which involved the use of new multimedia technology and the internet to improve the quality of learning. These techniques allow, for example, distance collaboration, collective assessment of work and provide access to resources and services, such as the Image Service, through which students can access databases of high quality images and/or original ones and numerous teaching aids relating to the subjects covered, and can also scan documents, etc.
