THE PROGRAMME'S COURSES AND LEARNING OUTCOMES

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the the skills expected of every graduate on completion of the programme. Course unit descriptions specify targeted learning outcomes, as well as the unit's contribution to reference framework of learning outcomes.

MINOGEST - Information

Evaluation

The evaluation methods comply with the [regulations concerning studies and exams](#). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

Possible trainings at the end of the programme

The minor in business studies does not allow students to automatically go on the Master's in Business Studies unless they meet a number of conditions (with the consent of the person in charge of the program) : consideration will be paid to the all the courses that made up the student's baccalaureate, and, where the student has not taken certain courses, they will be added to the Master's in Business Studies program (maximum 15 credits). The student must have completed an " introduction to blue-collar work " and have written an analysis report on the subject. This introduction consists of one week of work, primarily of a manual nature, in companies, associations, etc.
