#### 1. Graduate's outlook (professional expectations)

Professional focus: **interdisciplinary approach to the family and the couple**

To become an expert in the field of the couple and the family, with an approach which takes account of sexuality and gender, is the challenge faced by the graduate of the Master in Family and Sexuality Studies, Professional focus "interdisciplinary approach to the family and the couple". The School of Family and Sexuality Studies (ESFA) at UCL aims to train graduates who promote the well-being of people in their lives as a family or couple; while interacting with professionals from many disciplines at micro, meso and/or macro levels, depending on the situation.

Students who enrol on this course already hold a Bachelor's degree or a degree from a "Haute Ecole" (as a nurse, social worker, etc.; cf. admission requirements) and are undoubtedly already working professionals. They wish to acquire a university Master's degree centred around issues related to the couple and the family. They will utilise their acquired knowledge and experience throughout the programme.

On completion of the Master's, the graduates will have acquired a broad base of knowledge, theories, tools and methods in the different disciplines required to understand the issues related to the field of the couple and the family.

They will use their knowledge and skills to understand, analyse and respond to situations and issues in the field of the couple and the family, in all its complexity:

- using an academic approach centred on analysis and a strict methodology;
- using a multidisciplinary approach, adopting a critical and discerning attitude with regard to the contributions of other disciplines;
- using questioning that takes account of sexuality and gender;
- communicating and interacting relevantly and appropriately with the different actors involved in a given situation;
- taking account of the context;
- complying with deontological and ethical rules;
- proposing courses of action to resolve the situation/problem.

Through their choice of option, the graduates will have directed their training towards either the issue of Gender or the issue of Ethics, or to an additional path to other disciplines.

They question, enhance and consolidate their professional practice by critically reviewing their own work with regard to knowledge resulting from research and by adopting an academic approach. They will be committed to continuous development, which will allow them to exercise their profession demonstrating expertise, flexibility and an ability to adapt and to evolve in their role.
