Learning outcomes

UCLouvain's School of Philosophy strives to offer its students a comprehensive, coherent Bachelor's programme with a view to producing responsible citizens who play a full part in society.

By the end of the course, the students will have received:

- a solid grounding in philosophy;
- an introduction to one or more academic disciplines.

Graduates of this Bachelor's programme will have learned to:

- question the movements of social change in modern-day society;
- take inspiration from the history of thought to forge a link between present-day innovations and the constants of human experience;
- exercise their capacity for critical thinking and innovation;
- develop a critical mind and deductive reasoning skills.

These qualities, nurtured by adopting a questioning attitude and reading philosophical texts and by the diversity of the subjects taught, are vital in preparing students for a Master's degree or to take up employment.

List of available minors

When accessing the **bachelor's cycle** (annual block 2), students are invited to broaden their educational horizons by choosing a minor (see list at the bottom of the page).

What is a minor?

It is a kind of 30-credit option that allows students to:

- discover another discipline
- reflect on their personal learning project
- define the emphasis and meaning they wish to give to their training path
- access a Master's degree more easily (see the admission requirements for the Master's degree in question).

Please note that it is not possible to register for a minor outside the bachelor's degree!

FILO1BA - Information

Teaching method

The School of Philosophy (EFIL) focuses especially on pedagogy during the Bachelors.

The first year of the undergraduate programme in philosophy consists of common courses given within the faculty and courses specific to the students' degree programme.

2. a **study visit** for one term (30 credits) in one of the [many universities](#) with which the Faculty of Philosophy, Arts and Letters has concluded partnership agreements, in Europe under the Erasmus+ programme, in Switzerland under the SEMP programme, or elsewhere in the world under the FAME/Mercator programme, or
- a **study visit** for one term (30 credits) in one of the partner universities in Flanders, under the Erasmus Belgica programme.

The first term in the third year of the Bachelor's programme at UCLouvain can thus be substituted with similar courses offered in one of our partner universities.

Students can apply for UCLouvain-funded exchanges during both their Bachelor's and their Master's degree. This is a wonderful opportunity and all students are encouraged to seize it!

A period of study abroad is a personal and intellectual experience like no other. The Erasmus exchange is a unique opportunity to discover a different culture and its philosophy.

Our students should note the importance of considering two factors in choosing their destination: (1) the benefit of studying in a language other than their own mother tongue and (2) matching the particular strengths of the host university with their own preferred philosophy.

Furthermore, under the agreement between UCLouvain and KU Leuven, courses may be taken from the KU Leuven programme.
