

CRIM2M - Introduction

Introduction

Introduction

The School of Criminology provides specialized multidisciplinary training which allows to understand crime in all its complexity. The training focuses on several disciplinary areas: criminal law and criminal practices; psychological processes involved in the transition to the crime; social factors acting out and social mechanisms of creation of criminal law and the conditions of its application; study of human behavior in its interaction with biological, social and psychological dimensions.

Your profile

- Are you interested in issues of deviance;
- you plan to perform duties in the field of prevention and repression of crime;
- you place the individual at the center of your concerns and you want to be socially useful;
- you are looking for a training that prepares you for the response on the ground.

Your future job

Fields of action of the criminologist are:

- the Courts (federal and local) and prisons;
- the youth welfare: social service courts, facilities for children in care teams in the community, etc.;
- the prevention services created under security contracts and society;
- the Mental Health and Addiction;
- the social assistance to individuals (remand prisoners, detainees, victims, etc..) in the homes of justice in victim services, etc.;
- the research.

Your programme

The master offers:

- an interdisciplinary approach to deviance from the norm (sociology, law, psychology and biology);
- a specialized training in legal matters in connection with the crime and the penalty;
- an applied learning intervention: Maintenance behaviors, conflict management and crisis situations, etc.;
- extensive methodological tools;
- an internship in the field;
- the possibility of a part of your master abroad.

Specializations

Course prerequisites

The **table** below lists the activities (course units, or CUs) for which there are one or more prerequisites within the programme, i.e. the programme CU for which the learning outcomes must be certified and the corresponding credits awarded by the jury before registering for that CU.

These activities are also identified in the **detailed programme**: their title is followed by a yellow square.

Prerequisites and student's annual programme

As the prerequisite is for CU registration purposes only, there are no prerequisites within a programme year. Prerequisites are defined between CUs of different years and therefore influence the order in which the student will be able to register for the programme's CUs.

In addition, when the jury validates a student's individual programme at the beginning of the year, it ensures its coherence, meaning that it may:

- require the student to combine registration in two separate CUs which it considers necessary from a pedagogical point of view.
- transform a prerequisite into a corequisite if the student is in the final year of a degree course.

For more information, please consult the [Academic Regulations and Procedures](#).
