Anthropology is the science which takes an interest in everything related to man, ranging from the evolution of the human species to the most astonishing achievements and phenomena of human communities.

At the end of this study programme, students will have acquired :

- research methods and techniques (field research, description, interpretation) putting social and cultural anthropology into practice , primarily by means of a placement in the field (3 to 6 month placement or 1 day per week of professional work placement) and the production of a monograph (dissertation) which takes account of recent developments in information technology, both in gathering and analysing data.
- fundamental principles and concepts in the field of basic anthropology, culture and social life, taking account of recent developments in Western societies
- a greater desire to improve their knowledge of anthropology and general culture, in a context which highlights the different yet complementary nature of other disciplines (interdisciplinary roots of anthropology)

## Programme structure

In addition to broadening knowledge of the areas that go to make up anthropology, a well structured piece of research is a key part of the 120 credit Master in Anthropology. It is possible to do a placement in the field to pursue basic research. This reflects the process of aligning anthropology and sociology, begun in the University in 1997, where there is a course on Socio-anthropology and also a professional focus, organized with the Sociology Department on the Socio-anthropology of Interculturality and Development.

The Master in Anthropology is centred on a research project selected by the student with the help of a tutor. This entails understanding how to do the so-called 'participant observation'(choice of location, outside placement, investigation, description, interpretation then production of a monograph - dissertation).

The 120 credit Master in Anthropology offers core subjects, optional 'area' subjects and three different focuses.

- the core subjects (75 credits) include courses on research techniques (29 credits) "theoretical cross-disciplinary issues" (20 credits), lectures where well-known researchers present their findings (Chaire Leclercq - 6 credits) and general subjects (20 credits).
- according to the area of their research project (15 credits), students may also choose options (for example trade, symbolic systems, town, gender, religion, kinship or globalisation) or a group of optional subjects.

The choice of one of three different focuses (30 credits each) will enable students to develop specific skills:

- the research focus develops basic research skills with a theoretical foundation and more rigorous methods of analysis ;
- the professional focus in the socio-anthropology of interculturality and development develops skills in identifying, carrying out and assessing development projects of an intercultural nature both in the Northern and Southern hemispheres ;
- the teaching focus develops teaching and training skills in the field of social sciences.

## Course prerequisites

---

There are no prerequisites between course units (CUs) for this programme, i.e. the programme activity (course unit, CU) whose learning outcomes are to be certified and the corresponding credits awarded by the jury before registration in another CU.

## The programme's courses and learning outcomes

---

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the the skills expected of every graduate on completion of the programme. Course unit descriptions specify targeted learning outcomes, as well as the unit's contribution to reference framework of learning outcomes.

## Holders of a non-University 2nd cycle degree

Entry to all Masters (with the exception of Advanced Masters) can be gained through the special procedure for accrediting prior learning and experience known as VAE (validation des acquis de l'expérience).

For more information, go to [Accrediting prior learning and experience \(VAE\) in the Department of Political and Social Sciences](#)

## Access based on validation of professional experience

> It is possible, under certain conditions, to use one's personal and professional experience to enter a university course without having the required qualifications. However, validation of prior experience does not automatically apply to all courses. Find out more about [Validation of prior experience](#).

## Access based on application

Access based on application : access may be granted either directly or on the condition of completing additional courses of a maximum of 60 ECTS credits, or refused.

## Admission and Enrolment Procedures for general registration

Mature students may have professional experience accredited under the special procedure for accrediting prior learning and experience known as VAE (Valorisation des Acquis de l'Expérience). It is up to the board of examiners or their designated representative to determine admission criteria (besides admission, exemption up to a maximum of 60 credits may be awarded). For mature students, it is possible to enrol for the certificates successively and in a logical order in order to gain the relevant credits. At the end of this process they may enrol for the academic Master.

In addition, the compulsory 3 to 6 month ethnography study, within the usual programme, enables students to study abroad if they wish. However, this study can also be done in Belgium in tandem with other activities in the programme. As far as students who also work are concerned, it may be organized in connection with their job (in Belgium or abroad). Agreements with many different European and North American universities also encourage students to be mobile. (The list of agreements is available from the POLS Department).

The conclusion of agreements with the Council of Universities ([Conseil Interuniversitaire de la Communauté française – CIUF](#) and [Coopération Universitaire au Développement CUD](#)) to welcome students from the Southern hemisphere to study at UCL will further enrich the programme.

Finally, an international Master is under discussion which would place the UCL Master in a network of excellence in anthropology in collaboration with the universities of Aix en Provence, ULB (Brussels), Mainz, EHESS (Marseille), Roskilde, Uppsala and Geneva (IED). Students would study a minimum of 30 credits at UCL.

## Possible trainings at the end of the programme

---

Doctoral programme : doctorate in Anthropology

## Certificates

---

Students who have another Master and mature students may enrol for the certificates successively and in a logical order in order to gain the relevant credits. At the end of this process they may enrol for the academic Master.
