Introduction

SPOL1BA - Teaching profile

Learning outcomes

Study objectives in terms of acquisition of skills :

The bachelor's programme of Political Sciences aims to :

- provide the students with a basic grounding in Political Sciences (and its principal specialities and fields), to enable them to decode socio-political phenomena
- develop the students' capacity of critical analysis and multi-disciplinary reflection, starting with a opening course in the principal disciplines of the Human Sciences and, in particular, Political Sciences
- initiate the students in individual study, by means of an active pedagogical approach which leaves considerable room for personal (and group) work, as well as in the acquisition of written and oral communication skills
- lay the foundation stones to pave the way for further scientific steps (participation in a practical seminar on research, on-the-field contact, acquisition of primordial methodological tools), and to help the students to elaborate reports, respecting the rules of form and of content (a skill necessary both for embarking on the job-market and on the master's programme).

On successful completion of this programme, each student is able to :

AAC1.1. Démontrer une connaissance et une compréhension critique du socle de savoirs approfondis (connaissances, modèles, théories, concepts) de la discipline (ou des disciplines) de son orientation (autrement dénommée sa « majeure » sur le site de Louvain-la-Neuve) et de ses domaines d'application.

AAC2.2. Mettre en discussion différents paradigmes (ou approches conceptuelles) pour approcher, interpréter et analyser (débatte) un(e) phénomène/question relatif(ve) à la discipline de son orientation.

AAC2.3. Identifier et sélectionner les publications et les méthodes appropriées (en questionner la validité et la pertinence) pour analyser une question relative à la (aux) discipline(s) de son orientation.

Faire preuve d'autonomie dans son parcours de formation : gérer de manière autonome son travail (définir les priorités, anticiper et planifier l'ensemble de ses activités dans le temps), faire preuve de recul critique sur ses propres acquis, ses méthodes d'apprentissage et ses productions et intégrer de manière autonome de nouvelles connaissances et compétences en réponse à des situations balisées.

AAC5.2. Mobiliser de manière critique les connaissances acquises afin de prendre position et d'agir de manière responsable en étant soucieux de valeurs éthiques et citoyennes.

Course prerequisites

The **table** below lists the activities (course units, or CUs) for which there are one or more prerequisites within the programme, i.e. the programme CU for which the learning outcomes must be certified and the corresponding credits awarded by the jury before registering for that CU.

These activities are also identified **in the detailed programme**: their title is followed by a yellow square.

Prerequisites and student's annual programme

As the prerequisite is for CU registration purposes only, there are no prerequisites within a programme year. Prerequisites are defined between CUs of different years and therefore influence the order in which the student will be able to register for the programme's CUs.

In addition, when the jury validates a student's individual programme at the beginning of the year, it ensures its coherence, meaning that it may:

- require the student to combine registration in two separate CUs which it considers necessary from a pedagogical point of view.
- transform a prerequisite into a corequisite if the student is in the final year of a degree course.
