Programme structure

The PPE program (<https://uclouvain.be/fr/facultes/espo/sesp/bachelor-in-philosophy-politics-economics.html>) integrates first-class training in three disciplines - philosophy, politics and economics - and six bi-disciplinary courses in English. As a PPE student, you will benefit from a bilingual education in French (75%) and in English (25%) and you will also have the opportunity to learn a third language (Dutch, German, Spanish or other) from the 1st annual unit.

In the 3rd annual unit, you will have to write a Research paper (essay) and you will also have the opportunity to gain international experience by studying abroad through an university program. (<https://uclouvain.be/fr/facultes/espo/sesp/erasmus.html>)

Course prerequisites

The **table** below lists the activities (course units, or CUs) for which there are one or more prerequisites within the programme, i.e. the programme CU for which the learning outcomes must be certified and the corresponding credits awarded by the jury before registering for that CU.

These activities are also identified in the **detailed programme**: their title is followed by a yellow square.

Prerequisites and student's annual programme

As the prerequisite is for CU registration purposes only, there are no prerequisites within a programme year. Prerequisites are defined between CUs of different years and therefore influence the order in which the student will be able to register for the programme's CUs.

In addition, when the jury validates a student's individual programme at the beginning of the year, it ensures its coherence, meaning that it may:

- require the student to combine registration in two separate CUs which it considers necessary from a pedagogical point of view.
- transform a prerequisite into a corequisite if the student is in the final year of a degree course.

The programme's courses and learning outcomes

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the skills expected of every graduate on completion of the programme. Course unit descriptions specify targeted learning outcomes, as well as the unit's contribution to reference framework of learning outcomes.
