MINARCH - **Introduction**

Introduction

MINARCH - Teaching profile

Learning outcomes

The minor is open to all students who are interested in issues relating to the environment, civil engineering, town and country planning, urbanism, architecture and architectural history.

The minor is made up of basic activities which do not require any specific prior qualifications.

The minor amounts to 26 credits. The student completes his/her program by adding electives in order to reach a total of at least 30 credits.

The minor gives students an insight into and a basic introduction to the discipline of the architectural engineer. It includes activities in the three key areas: architectural theory and history, architectural technology, architectural design. Students do not need any specific qualifications for these activities.

The minor is open to all students who are enrolled on baccalaureate programs in the Faculté des sciences appliquées, regardless of
