SGED2MC Programme

Detailed programme by subject

CORE COURSES [33.0]

- Mandatory
- ✘ Optional
- △ Not offered in 2023-2024
- ⊖ Not offered in 2023-2024 but offered the following year
- ⊕ Offered in 2023-2024 but not the following year
- △ ⊕ Not offered in 2023-2024 or the following year
- Activity with requisites
- 🌐 Open to incoming exchange students
- 🚫 Not open to incoming exchange students
- [FR] Teaching language (FR, EN, ES, NL, DE, ...)

Click on the course title to see detailed informations (objectives, methods, evaluation...)

This programme is inter university. The two partners universities are Université de Liège and UCL-Agro-Louvain

● LDVLP2675	Dynamics of development - environment inter-actions	An Ansoms	FR [q2] [30h] [3 Credits] 🌐

The programme's courses and learning outcomes

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the the skills expected of every graduate on completion of the programme. Course unit descriptions specify targeted learning outcomes, as well as the unit's contribution to reference framework of learning outcomes.

SGED2MC - Information

Access Requirements

*In the event of the divergence between the different linguistic versions of the present conditions, the French version shall prevail.
Decree of 7 November 2013 defining the landscape of higher education and the academic organization of studies.
The admission requirements must be met prior to enrolment in the University.*

Unless explicitly mentioned, the bachelor's, master's and licentiate degrees listed on this page are to be understood as those issued by an institution of the French, Flemish or German-speaking Community, or by the Royal Military Academy.

In the event of the divergence between the different linguistic versions of the present conditions, the French version shall prevail.

General access requirements

Translated from https://www.gallilex.cfwb.be/fr/leg_res_01.php?ncda=39681&referant=I02

Art. 112. of the "Décret définissant le paysage de l'enseignement supérieur et l'organisation académique des études" :

§ 1. In accordance with the general requirements established by the academic authorities, students who have:

1. a master's degree;
2. an academic degree similar to the one mentioned in the preceding paragraph awarded by a higher education institution in the Flemish Community or the German-speaking Community, or by the Royal Military Academy, by virtue of a decision of the academic authorities and in accordance with any additional requirements they may establish;
3. a foreign academic degree recognised as equivalent to those mentioned in paragraphs 1 and 2 pursuant to this decree, a European directive, an international convention or other legislation, in accordance with the same requirements.

The additional admission requirements referred to in paragraph 2 are intended to ensure that the student has acquired the knowledge and skills required for the studies in question. When the additional admission requirements consist of one or more additional course units, these may not represent more than 60 additional credits for the student, taking into account all the credits that he or she may otherwise use for admission. These course units are part of the student's study programme.

§ 2. In accordance with the general requirements established by the academic authorities, a student who holds a title, diploma, degree or certificate of higher education, in the French Community or outside it, which does not grant him or her eligibility for admission to a specialised master's course by virtue of the preceding paragraph, may nevertheless be admitted by the jury of the course in question, in accordance with the additional requirements that it establishes, if the totality of the higher education that he or she has completed or the expertise that he or she has acquired is valued by the jury to be at least 240 credits.

Teaching method

Ce Master consiste en une formation pratique et interdisciplinaire. L'amélioration des connaissances et l'intégration des savoirs doit permettre une meilleure gestion des ressources naturelles (eau, sol, faune, flore, nature, biodiversité, ...).

Le programme est organisé sur base de trois approches originales :

- Par une approche rigoureuse, appréhender la gestion de l'environnement dans les PED à partir de deux thématiques environnementales identifiées après une enquête auprès de contacts issus des PED (collaborateurs, collègues universitaires, étudiants, ...) à savoir celle de la gestion de l' Eau et des Sols et celle de la gestion de la Nature et des Territoires .
- S'approprier la pratique d'utilisation d'indicateurs de développement durable en référence à l'approche DPSIR (Driving Forces – Pressures – States – Impacts – Responses) de l'Agence Européenne de l'Environnement ;

et surtout parce que la région offre une série de problématiques environnementales très variées en PED à moins de trois heures d'avion et dans un rayon de moins de 300 km entre la mer méditerranée et le désert du Sahara. Cette semaine de terrain est obligatoire pour
