

**At Louvain-la-Neuve - 120 credits - 2 years - Day schedule - In French**

Dissertation/Graduation Project : **YES** - Internship : **YES**

Activities in English: **YES** - Activities in other languages : **optional**

Activities on other sites : **optional**

Main study domain : **Sciences politiques et sociales**

## ADPU2M - Introduction

### Introduction

---

## ADPU2M - Teaching profile

### Learning outcomes

---

1. The Master in Public Administration offers courses based on :

- the analysis of the many different issues faced by institutions and players in the context of public policy;
- the acquisition of methods and skills to deliver effectiveness and efficiency in public sector administration;
- the modernisation and continuous assessment of change in public organizations.

2. In terms of professional training, this Master prepares students to take up various roles in the administration and management of public organizations, both at regional and local level as well as in bodies working in close collaboration with the public sector (e.g. political parties, trades unions and professional organizations). In addition, although the programme is not primarily aimed at the Belgian public sector, it nevertheless offers support to students wishing to prepare for certain entry examinations held by public institutions such as the government recruitment office (SELOR).

3. Finally, this Master gives students the opportunity to develop their individual research skills. They will acquire a rigorous framework for posing questions in a field of their choice (see the options), either in the context of the work placement and the dissertation (professional focus) or the dissertation project which then leads on to a doctorate (research focus).

On successful completion of this programme, each student is able to :

**Comme tout diplômé du Master en sciences politiques (et plus particulièrement dans le domaine de l'administration publique) :**

- Choisir des informations pertinentes permettant l'analyse et la comparaison de situations politiques.
- Présenter l'information de façon correcte, structurée, claire, précise et argumentée (dont une capacité de rapportage pour des rapports, bilan, note, compte-rendu...).
-

### o Mémoire (25 crédits)

Il appartient à l'étudiant d'effectuer ses choix de cours en fonction de l'organisation de son stage obligatoire (5 crédits) et de son mémoire (20 crédits), voire d'un séjour d'un quadrimestre à l'étranger. Le stage obligatoire est supervisé par un professeur de l'Ecole et réalisé en lien avec le mémoire de fin d'études. Il est suivi en dehors des périodes de cours, par exemple au cours des mois d'été après la première année.

Year

## Course prerequisites

---

There are no prerequisites between course units (CUs) for this programme, i.e. the programme activity (course unit, CU) whose learning outcomes are to be certified and the corresponding credits awarded by the jury before registration in another CU.

## The programme's courses and learning outcomes

---

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the skills expected of every graduate on completion of the programme. Course unit descriptions specify targeted learning outcomes, as well as the unit's contribution to reference framework of learning outcomes.

--

## Access based on validation of professional experience

> It is possible, under certain conditions, to use one's personal and professional experience to enter a university course without having the required qualifications. However, validation of prior experience does not automatically apply to all courses. Find out more about [Validation of priori experience](#)

## Teaching method

---

The interdisciplinary nature of the programme is reflected both in the core subjects and in the area studies.

Wide variety of teaching strategies (including e-learning)

- most of the teaching staff have been trained to use of modern multi-media techniques and innovations introduced at the University such as i-Campus. Each year the overall teaching framework is strictly coordinated
- the objective of the seminars is to give students the methodological framework they will need for their individual projects, whether research or professionally based.

Wide variety of learning situations :

- possibility of a work placement (professional and research focuses)
- group work (core subjects as well as professional and research focuses)
- possibility of joining a research team (research focus)

## Evaluation
