

## SOTB1BA - Introduction

### Introduction

---

#### Introduction

Due to the importance of multilingualism in a society increasingly open to the world, the Saint-Louis - Bruxelles campus offers bilingual and trilingual programmes in sociology and anthropology. Two programmes are offered: either bilingual French/English, or trilingual French/Dutch/English, with 3 to 4 course units in the target language(s) per year of study.

Completing a bachelor's degree in sociology and anthropology in a trilingual French-English-Dutch programme is an asset for your future studies and your professional and social endeavours in a multicultural world, whether in Brussels, elsewhere in Belgium or abroad.

The trilingual French-English-Dutch bachelor's programme in sociology and anthropology at the Saint-Louis - Bruxelles campus allows you to take part of your programme in English and Dutch: 4 courses each year (2 in English and 2 in Dutch).

Sociology and anthropology originate from the desire of modern societies to know more about themselves and about other societies, and to be able to influence their own actions.

The approach adopted by sociologists and anthropologists combines a capacity for analysis with an awareness of concrete realities (through survey techniques, field studies, etc.). It is both rigorous and creative. The field of study of these two disciplines is extremely vast: social change, gender relations, power, inequalities, globalisation, multiculturalism, cities and mobility, beliefs, family, sexuality, new media, social networks, ecological issues, health and well-being, etc.

From fundamental research to support in the decision-making process (consulting) and service to society, these two disciplines address a wide range of issues. In a world in constant turmoil, the knowledge and skills of sociologists and anthropologists are more relevant than ever.

#### Your profile

Would you like to understand the issues and social and cultural transformations in contemporary societies? Would you like to be an agent of change? An open mind, an interest in human relations, discovering the diversity of cultures and foreign languages, intellectual curiosity and constant attention to current events are basic prerequisites for sociology and anthropology students.

You have a basic knowledge of English and Dutch, allowing you to take courses in English and Dutch. There is no selection process for multilingual programmes.

- However, a written language test is held at the beginning of the year. It is used as a guide to assess language skills and to recommend or advise against a bilingual or trilingual programme.
- In the event of difficulties, there is the option to return to the unilingual programme in French, with language courses.

#### Your future job

Sociologists and anthropologists are valued for their ability to analyse the world we live in, while helping to solve the problems or reduce the tensions which arise in societies marked by change, complexity and diversity.

- Social intervention and political sphere (at local, regional, federal, European or international level)
- Organisations, associations and public authorities in the fields of youth aid, social action, migration, the environment, gender relations, employment, citizen participation, etc.
- Expertise (ministerial office, private consultancy, decision support)
- Political and economic (spatial planning and mobility management, migration flows, social and healthcare policies, precariousness and mental health, security and protection, etc.)
- Survey agencies, opinion polls, marketing services
- Associations and culture, social movements, feminist and solidarity organisations
- Staff services, human resources management, labour sciences
- Intercultural professions (at local level – mediation, interface, etc. – but also at global level – in companies or international organisations – involving the intersection of cultures: translation or facilitation functions, etc.)
- Development cooperation, humanitarian aid, non-governmental organisations (NGOs)
- New professions linked to cultural innovation and communication (advertising, cyberculture, social networks, information management, etc.)
- Education and research

2. an increasingly specialised background in sociology and anthropology: (analysis of sociological theories, sociology of culture, special issues in anthropology, political sociology, analysis of public action, socio-anthropology of symbolics, analysis and theories of power, sociology of collective action, urban change and policies, etc.)
3. a methodological background in the form of courses and seminars covering a range of qualitative and quantitative methods in the humanities and social sciences (approach and methods in the social sciences, field methods, quantitative methods, etc.)
4. quality language instruction.

In the trilingual French-English-Dutch bachelor's programme in sociology and anthropology, four courses per year are taught in English and Dutch.

- First year: *Analyse van de media-instellingen, Sociologie (Dutch), Political science, Geopolitics*
- Second year: *Law and religion, Economie 1 (Dutch), Economics 2, Politieke sociologie*
- Third year: *Mens en organisatie, Milieu en samenleving, International Communications, Ethics and the Economy*

The courses are taught by native English speakers or faculty members who have completed all or part of their university studies in English. In addition, students continue to perfect their language skills by taking English and/or Dutch courses in first, second and third year.

Furthermore, during the second term of the third year, students may take part in an Erasmus exchange at a university in Europe, Asia, North America or South America, whose programmes are taught in a language other than French. Another option is for students who pass the June exam session to apply for a summer language study grant in Flanders or abroad.

### **Pursuing a dual bachelor's degree**

Our dual bachelor's degrees are one of the special features of UCLouvain Saint-Louis - Bruxelles.

Students can take a second bachelor's degree, in tandem with their main bachelor's degree. This means that they complete their main programme with a minimum of 60 and a maximum of 125 additional credits spread over several years. The additional bachelor's degree can be completed after the main bachelor's degree. A series of courses taken as part of the main programme count towards the additional bachelor's degree and are therefore no longer subject to assessment.

## SOTB1BA - Teaching profile

### Learning outcomes

---

At the end of their bachelor's degree in sociology and anthropology, students will have acquired the following skills:

#### **I. A grounding in the core teachings and methods of the discipline**

- **A command of the fundamentals of sociology and anthropology, and their epistemological grounding, with a view to addressing the key research issues of the discipline**
- **A thorough grounding in sociology and anthropology, through general and specialised courses:** sociology, anthropology, analysis of sociological theories, political sociology, cultural sociology, special anthropological issues, socio-anthropology of symbolics, sociology of collective action, etc.

#### **II. Basic knowledge in fields complementary to sociology and anthropology**

- **The ability to draw on interdisciplinary knowledge from various fields of the humanities and social sciences** in order to analyse contemporary or historical social phenomena
-

## Course prerequisites

---

The **table** below lists the activities (course units, or CUs) for which there are one or more prerequisites within the programme, i.e. the programme CU for which the learning outcomes must be certified and the corresponding credits awarded by the jury before registering for that CU.

These activities are also identified **in the detailed programme**: their title is followed by a yellow square.

### Prerequisites and student's annual programme

As the prerequisite is for CU registration purposes only, there are no prerequisites within a programme year. Prerequisites are defined between CUs of different years and therefore influence the order in which the student will be able to register for the programme's CUs.

In addition, when the jury validates a student's individual programme at the beginning of the year, it ensures its coherence, meaning that it may:

- require the student to combine registration in two separate CUs which it considers necessary from a pedagogical point of view.
- transform a prerequisite into a corequisite if the student is in the final year of a degree course.

## SOTB1BA - Information

### Access Requirements

*Decree of 7 November 2013 defining the landscape of higher education and the academic organization of studies.*

*The admission requirements must be met prior to enrolment in the University.*

***In the event of the divergence between the different linguistic versions of the present conditions, the French version shall prevail.***

#### SUMMARY

- [General access requirements](#)
- [Specific access requirements](#)
- [Access based on validation of professional experience](#)
- [Special requirements to access some programmes](#)

### General access requirements

Except as otherwise provided by other specific legal provisions, admission to undergraduate courses leading to the award of a Bachelor's degree will be granted to students with one of the following qualifications :

1. A Certificate of Upper Secondary Education issued during or after the 1993-1994 academic year by an establishment offering full-time secondary education or an adult education centre in the French Community of Belgium and, as the case may be, approved if it was issued by an educational institution before 1 January 2008 or affixed with the seal of the French Community if it was issued after this date, or an equivalent certificate awarded by the Examination Board of the French Community during or after 1994;
2. A Certificate of Upper Secondary Education issued no later than the end of the 1992-1993 academic year, along with official documentation attesting to the student's ability to pursue higher education for students applying for a full-length undergraduate degree programme;
3. A diploma awarded by a higher education institution within the French Community that confers an academic degree issued under the

- For any secondary school diploma **from a European Union country**, the admission request must contain the equivalence of your diploma or, at the very least, proof of the filing of the equivalence request with the Wallonia-Brussels Federation (French Community of Belgium). For any information relating to obtaining an equivalence, please refer to [the following site](#).
- For any secondary school diploma **from a country outside the European Union**, the admission application must contain the [equivalence of your diploma](#) issued by the Wallonia-Brussels Federation (French Community of Belgium). If you have a restrictive equivalence for the programme of your choice, in addition of it, you **must** have either the [DAES](#) or a certificate of successful completion of the [examination giving access to 1<sup>st</sup> cycle studies](#) when you submit your application

## Access based on validation of professional experience

Admission to undergraduate studies on the basis of accreditation of knowledge and skills obtained through professional or personal experience (Accreditation of Prior Experience)

Subject to the general requirements laid down by the authorities of the higher education institution, with the aim of admission to the undergraduate programme, the examination boards accredit the knowledge and skills that students have obtained through their professional or personal experience.

This experience must correspond to at least five years of documented activity, with years spent in higher education being partially taken into account: 60 credits are deemed equivalent to one year of experience, with a maximum of two years being counted. At the end of an assessment procedure organized by the authorities of the higher education institution, the Examination Board will decide whether a student has sufficient skills and knowledge to successfully pursue undergraduate studies.

After this assessment, the Examination Board will determine the additional courses and possible exemptions constituting the supplementary requirements for the student's admission.

## Special requirements to access some programmes

- Admission to **undergraduate studies in engineering: civil engineering and architect**  
Pass certificate for the [sTJ /F1 t](#)

## Teaching method

---

In addition to traditional lectures, which take place in moderate-sized auditoriums, active teaching practices encourage the use and development of theoretical, methodological and analytical skills.

Furthermore, the bachelor's degree in sociology and anthropology includes more 'practical' learning activities, for example in the form of seminars or workshops based on student contributions and held in small groups. This allows students to be in close contact with professors and teacher-researchers within small working groups, and to implement approaches which make concrete use of the knowledge acquired during the programme.

The Saint-Louis - Bruxelles campus is located right in the centre of Brussels, with easy metro and train connections as well as other practical advantages. But above all, its location close to social stakeholders, associations, NGOs and national and European political institutions allows interactions and participation in activities to take place in relation to these stakeholders.

The Saint-Louis - Bruxelles campus places great importance on educational support for all bachelor's programmes. The Academic Guidance Service (AGS) offers a range of support activities.

## Evaluation

---

***The evaluation methods comply with the [regulations concerning studies and exams](#). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".***

Assessments are generally carried out by means of an examination. In the case of seminars, they take into account the grades received for work submitted over the course of the year. Examinations are either written (for courses given to large groups of students) or oral. They focus not only on knowledge of the subject matter, but also on a student's ability to apply it to topics not discussed during the course.

Three examination sessions are organised during the academic year, in January, June and August/September. First-year students who do not achieve passing grades in the January session have up to two opportunities to retake specific examinations, in June and/or September.

## Mobility and/or Internationalisation outlook

---

### Exchange programmes

UCLouvain Saint-Louis - Bruxelles has exchange agreements with universities outside the French-speaking community of Belgium. These agreements allow students to take part of their bachelor's degree programme at a partner university while remaining enrolled at UCLouvain Saint-Louis - Bruxelles. Conversely, students from partner universities may take part of their bachelor's programme at UCLouvain Saint-Louis - Bruxelles.

Three types of exchange are available:

- Erasmus exchanges with universities in European Union countries
- Erasmus Belgica exchanges with Dutch-language Belgian universities
- exchanges with universities outside Europe, on the basis of bilateral agreements

Sociology and anthropology students can take part in an Erasmus exchange during the second term of year 3. [Find out more](#) about the proposed destinations. The exchange programme is equivalent to approximately 30 credits.

### Language study grants

The faculty awards grants to students for language courses in various destinations during the summer. The selection of candidates is based on their results and motivation.

Students who take part in an Erasmus exchange during year 3 may also take part in another Erasmus stay during their master's degree.

Find out more about the [language stays and study grants](#).

## Possible trainings at the end of the programme

---

The Saint-Louis - Bruxelles campus specialises in the bachelor's degree. After your bachelor's degree in sociology and anthropology, you can pursue your master's studies in the Fédération Wallonie-Bruxelles or at another university in Belgium or abroad (Europe, Canada, etc.).
