SGED2MC - Information

Access Requirements

*In the event of the divergence between the different linguistic versions of the present conditions, the French version shall prevail.
Decree of 7 November 2013 defining the landscape of higher education and the academic organization of studies.
The admission requirements must be met prior to enrolment in the University.*

Unless explicitly mentioned, the bachelor's, master's and licentiate degrees listed on this page are to be understood as those issued by an institution of the French, Flemish or German-speaking Community, or by the Royal Military Academy.

In the event of the divergence between the different linguistic versions of the present conditions, the French version shall prevail.

SUMMARY

- [General access requirements](#)

General access requirements

Translated from https://www.gallilex.cfwb.be/fr/leg_res_01.php?ncda=39681&referant=l02

Art. 112. of the "Décret définissant le paysage de l'enseignement supérieur et l'organisation académique des études" :

§ 1. In accordance with the general requirements established by the academic authorities, students who have:

1. a master's degree;

Teaching method

Ce Master consiste en une formation pratique et interdisciplinaire. L'amélioration des connaissances et l'intégration des savoirs doit permettre une meilleure gestion des ressources naturelles (eau, sol, faune, flore, nature, biodiversité, ...).

Le programme est organisé sur base de trois approches originales :

- Par une approche rigoureuse, appréhender la gestion de l'environnement dans les PED à partir de deux thématiques

et surtout parce que la région offre une série de problématiques environnementales très variées en PED à moins de trois heures d'avion et dans un rayon de moins de 300 km entre la mer méditerranée et le désert du Sahara. Cette semaine de terrain est obligatoire pour l'ensemble des étudiants.
