The programme's courses and learning outcomes

"Licenciés"

Masters

- **Consistency** between the candidate's previous academic career and the prerequisites for the targeted program. The match between the candidate's academic background and the UCLouvain bachelor's degree giving direct access to the master's program need not be perfect, but the skills acquired (see specific access conditions) must be close; Example: for an application for admission to a master's program in modern languages and literature, the candidate's previous training includes courses in languages and literature in both modern languages.
- **Grades** obtained in the program's major disciplines (see specific entry requirements);
- **Arguments** put forward by the applicant in his or her cover letter (training project in line with the program in question, relevance of arguments, coherence between the applicant's application and the program in question, etc.) Example: the language combination requested by the applicant is organized in the program in question.
- **Original covering letter.** An original covering letter is expected, explaining the personal training project. Any plagiarism or use of artificial intelligence in writing the letter to the jury will result in the application being disqualified.
- **Experience gained.** If the access diploma was obtained more than 5 years ago, it is imperative that the experience acquired since leaving school is directly related to the field of study of the programme applied for.
