## Teaching method

---

### Learning to practise law

Tutorials, seminars and practical work complement the knowledge acquired in lectures, and enable small groups to compare the general, abstract nature of the rule of law with real-life situations.

During practical exercises, students take part in mock trials, draw up pleadings, work on finding solutions to real cases, analyse various documents, etc.

The written work which students complete as part of their practical work teaches them to formulate a legal question, find solutions to it by carrying out documentary research and formulate their results appropriately.

In order to equip students as best as possible, expose them to situations and help them carry out practical work in the best possible conditions, the faculty provides them with:

- computer rooms providing access to legal databases;
- a courtroom for mock trials and moot court competitions;
- the law library, with thousands of references available.

Furthermore, our teaching methods are designed to make the most of the limited time available to adult students with professional and/or family lives.

### Methodological assistance

The Saint-Louis - Bruxelles campus places great importance on educational support for all bachelor's programmes. The Academic Guidance Service (AGS) offers a range of activities and is available to meet students who wish to do so.
