Introduction

The historian is a specialist in the how the past relates to the present. But it is not enough to be curious and interested in the past to choose to study history. It requires learning methods of information and research: assembling documents and assessing them critically, organising data and putting them in their historical context, making a summary. History is of interest to people today: it helps them to understand and act in today's world.

By the end of the first cycle, you will have learnt how to

HIST1BA - Teaching profile

Learning outcomes

The Bachelor in History effectively prepares students for entry into a Master's degree in History so that, once they have successfully completed their Master's programme, they can "explain the full complexity of the history of man and societies that have preceded us, and their links with the present day".

(1) introduction to the human sciences (arts and civilisations, European literature, analysis and practice of academic discourse, ancient and modern languages, philosophy, anthropology and psychology, logic and argumentation, economic and social history, religious sciences);

(2) introduction to the historical periods (Antiquity, Middle Ages, Modern Times, contemporary era) and the historical fields (political and institutional, social and economic, religious, cultural and intellectual elements);

(3) methodological and disciplinary training (historical criticism, heuristics, [documentary research], historiography, quantitative methods, practicals and seminars).

The first block of undergraduate studies starts with a term of general foundation courses common to all of the faculty's Bachelor's programmes. Students will be introduced to history, art history, literature and the art of academic discourse, providing them with a solid grounding.

They will also receive discipline-specific courses from the first term of Block 1. These will become their core courses in the second term of Block 1.

From Block 2, students continue their studies in their major subject and are also invited to choose a 30-credit minor with a view to broadening their intellectual and professional horizons. This minor can be selected from another faculty discipline or from another UCL faculty, subject to certain admission requirements set by the programme managers.

List of available minors

When accessing the **bachelor's cycle** (annual block 2), students are invited to broaden their educational horizons by choosing a minor (see list at the bottom of the page).

What is a minor?

It is a kind of 30-credit option that allows students to:

- discover another discipline
- reflect on their personal learning project
- define the emphasis and meaning they wish to give to their training path
- access a Master's degree more easily (see the admission requirements for the Master's degree in question).

Please note that it is not possible to register for a minor outside the bachelor's degree!

Access based on validation of professional experience

Admission to undergraduate studies on the basis of accreditation of knowledge and skills obtained through professional or personal experience (Accreditation of Prior Experience)

Subject to the general requirements laid down by the authorities of the higher education institution, with the aim of admission to the undergraduate programme, the examination boards accredit the knowledge and skills that students have obtained through their professional or personal experience.

This experience must correspond to at least five years of documented activity, with years spent in higher education being partially taken into account: 60 credits are deemed equivalent to one year of experience, with a maximum of two years being counted. At the end of an assessment procedure organized by the authorities of the higher education institution, the Examination Board will decide whether a student has sufficient skills and knowledge to successfully pursue undergraduate studies.

After this assessment, the Examination Board will determine the additional courses and possible exemptions constituting the supplementary requirements for the student's admission.
