HIST2M - Teaching profile

Learning outcomes

Students on the [Master \[120\] in History](#) prepare themselves to, in the course of their socio-professional life, demonstrate the ability to shed light upon the complexities of the history of people and societies which have preceded us and the connections linking them to our present.

At the end of the course, the future historians will have deepened their knowledge and awareness of the themes relating to different historical fields and periods, by situating them within the principal trends in current research. Students will have acquired expert knowledge of research methods in historical studies: able to construct a relevant research problem, gather documentation, analyse and criticise the data collected, reach their own conclusions and communicate the results obtained to different audiences and in different ways.

Open to interdisciplinary studies, students will also be capable of employing concepts and methods from social studies in particular in the course of their research. The future historians are aware of the issues, debates and even exploitation to which the past is subject, and can contribute, using a scientific approach, to a better understanding of the present.

Using their ability to communicate their knowledge and critical investigation methods, the future historians can enrich societal debates.

On successful completion of this programme, each student is able to :

1. Achieve expert and specialised knowledge and awareness of the themes relating to different historical fields and periods, by situating them within the principal trends in current research.

2. Attain expert knowledge of and employ research methods in historical studies: develop and carry out research work, implement a methodological and critical approach in the finding and implementation of data, in order to look deeper into a specific historical issue, reaching their own balanced and reasoned conclusions.

2.1. Formulate a relevant research question, adapt and define it over the course of their research by refining their working hypotheses;

2.2. Consolidate the documents (sources and bibliography), by questioning the validity and relevance of the sources as regards the research problem being studied hypotheses;

- 8.1. Look deeper into certain aspects of the case studies presented, by means of reading materials which will encourage reflection and discussion during sessions;
- 8.2. Identify and analyse the principles, methods and challenges which underlie the main research trends in the past and now;
- 8.3. Assess the relevance of the material employed by the author of a scientific work, the approach adopted and the conclusions presented;
- 8.4. Compare various scientific output dealing with the same theme, demonstrating and creating a dialogue between the different questions, sources, methods and conclusions.

9. **If the Teaching Focus is chosen:** call upon the competencies necessary to begin teaching effectively in upper secondary education, in history, and be able to progress there.

- 9.1. To take part in education, in partnership with different parties;
- 9.2. Teach in authentic and varied situations;
- 9.3. Reflect upon and progress through the usual stages of continuing development.

For further information, please go to [Teacher Training Certificate \(upper secondary education\) - History](#).

10. **If the Professional Focus: History and Archives is chosen:** independently manage an archive, collect, classify, inventory the stock and implement a conservation and evaluation policy for the same.

- 10.1. Progress to finding, assessing, collecting, classifying and conducting an inventory of the stock in the archive coming from public or private bodies, both from the Ancien Régime and the contemporary era;
- 10.2. Attain expert theoretical knowledge in methods of conservation which relate to traditional methods or those offered by new information and communication technologies and apply them to real cases;
- 10.3. Become expert in different methods for assessing archive heritage;
- 10.4. Acquire knowledge and experientudies pre 0.5098 0.7059 rg 1 0 n al:eaentudr bentt.

TEACHING FOCUS [30.0]

IMPORTANT NOTE: In accordance with article 138 para. 4 of the decree of 7 November 2013 concerning higher education and the academic organisation of studies, teaching practice placements will not be assessed in the September session. Students are required to make every effort to successfully complete the teaching practice in the June session, subject to having to retake the year.

The teaching focus is concerned with preparation for teaching at the higher levels of secondary education.

The programme is designed to develop the following skills :

- design, planning and assessment of practice ;
- ability to assess practices and their context ;
- understanding of the educational institution, its setting and players.

Three kinds of activities are involved :

- teaching practice at the higher levels of secondary education (60 hours)
- seminars ;
- lectures.

They are divided into two categories:

- teaching practice, multidisciplinary courses and seminars, common to all subjects. They have the code LAGRE (13 credits);
- subject-based teaching practice, courses and seminars (17 credits).

The teaching focus of the 120 credit Master's degree includes the training which leads to the qualification for teaching in secondary education (Agrégation de l'enseignement secondaire supérieur – AESS) (300 hours - 30 credits), in accordance with the Decrees of 8 February 2001 and that of 17 December 2003 (concerning the basis of neutrality) relating to the initial training of teachers at the higher levels of secondary education in the French Community in Belgium.

These 30 credits also make up the AESS programme in Ancient Languages and Literatures: Classics which can be taken after a 60 credit or a 120 credit Master's degree. In practical terms, successful completion of the Master's degree with the teaching focus leads also to the award of professional status as a secondary education teacher. Assessment of the skills in the AESS programme is spread over the 2 blocks of the Master's degree.

OPTION IN SUBALTERNITIES AND POSTCOLONIAL CRITIQUES: HISTORY, WORLD AND SOCIETIES [15.0]

This option aims to deepen the study and practice of critical decentring in history. The aim is not only to mobilise epistemological frameworks from other social science disciplines, but also to train in the work of historians who question the past in an inclusive and decentred manner, and who interrogate systems of power and relations of domination and dependence (ethnic, economic, political, cultural, gender, religious, etc.).

Course prerequisites

There are no prerequisites between course units (CUs) for this programme, i.e. the programme activity (course unit, CU) whose learning outcomes are to be certified and the corresponding credits awarded by the jury before registration in another CU.

The programme's courses and learning outcomes

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the skills expected of every graduate on completion of the programme. Course unit descriptions specify targeted learning outcomes, as well as the unit's contribution to reference framework of learning outcomes.

HIST2M - Information

Access Requirements

Master course admission requirements are defined by the French Community of Belgium Decree of 7 November 2013 defining the higher education landscape and the academic organisation of courses.

General and specific admission requirements for this programme must be satisfied at the time of enrolling at the university.

Unless explicitly mentioned, the bachelor's, master's and licentiate degrees listed in this table or on this page are to be understood as those issued by an institution of the French, Flemish or German-speaking Community, or by the Royal Military Academy.

In the event of the divergence between the different linguistic versions of the present conditions, the French version shall prevail.
