CPI2MC - Introduction

Introduction

CPI2MC -

The programme's courses and learning outcomes

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the the skills expected of every graduate on completion of the programme. Course unit descriptions specify targeted learning outcomes, as well as the unit's contribution to reference framework of learning outcomes.

Teaching method

Importance given to practical training : the work placement and the dissertation account for half the 180 credits in the programme. These activities are closely supervised by all the professors and assistant teaching staff at the Faculty.

Evaluation

The evaluation methods comply with the [regulations concerning studies and exams](#). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

There will be a written examination for courses with high attendance. For other courses there will either an oral examination, individual work or group work. Further details can be found in the course specifications.
