CRIM2M - Teaching profile

Learning outcomes

The goal of the master is to offer the students the theoretical and methodological resources to understand criminality and penalty and, more generally, deviance and social control.

- **Concevoir et réaliser un travail de recherche de nature transdisciplinaire** (mémoire), mettant en œuvre une démarche scientifique et méthodologique rigoureuse, pour approfondir une question de recherche inédite relative aux usages du pénal et aux situations-problèmes qui intéressent la criminologie.
- Formuler une question de recherche complexe.
- Rendre compte de l'état des connaissances sur cette question.
- Construire et mettre en œuvre un dispositif méthodologique rigoureux et pertinent en vue d'y répondre.
- Concevoir et réaliser, le cas échéant, une recherche empirique quantitative et/ou qualitative, en mobilisant les outils d'analyse adéquats.
- Analyser et interpréter les résultats.
- Développer un esprit de synthèse et formuler des conclusions.
- Faire preuve, de manière générale, d'un recul critique tant sur son propre travail que sur les connaissances qui y sont mobilisées.
- **Communiquer, dialoguer, collaborer et tenir la fonction d'interface** avec les différents acteurs impliqués dans une situation donnée.
- Communiquer, à l'oral et à l'écrit sur des sujets complexes (des informations, des idées, des conclusions, des pistes d'actions concrètes, ainsi que les connaissances et principes sous-jacents) de façon claire, structurée, argumentée selon les standards de communication spécifiques au contexte et en adaptant sa présentation au public visé et aux intentions poursuivies.
- Dialoguer de manière respectueuse et constructive avec des interlocuteurs variés (tant d'un point de vue socio-culturel, qu'au départ de leur fonction, de leurs champs d'action et de leur domaine disciplinaire d'expertise) en faisant preuve de capacité d'écoute, d'ouverture d'esprit, d'empathie, de distanciation et d'assertivité.

Course prerequisites

The **table** below lists the activities (course units, or CUs) for which there are one or more prerequisites within the programme, i.e. the programme CU for which the learning outcomes must be certified and the corresponding credits awarded by the jury before registering for that CU.

These activities are also identified **in the detailed programme**: their title is followed by a yellow square.

Prerequisites and student's annual programme

As the prerequisite is for CU registration purposes only, there are no prerequisites within a programme year. Prerequisites are defined between CUs of different years and therefore influence the order in which the student will be able to register for the programme's CUs.

In addition, when the jury validates a student's individual programme at the beginning of the year, it ensures its coherence, meaning that it may:

- require the student to combine registration in two separate CUs which it considers necessary from a pedagogical point of view.
- transform a prerequisite into a corequisite if the student is in the final year of a degree course.

For more information, please consult the [Academic Regulations and Procedures](#).

CRIM2M - Information

Access Requirements

Master course admission requirements are defined by the French Community of Belgium Decree of 7 November 2013 defining the higher education landscape and the academic organisation of courses.

General and specific admission requirements for this programme must be satisfied at the time of enrolling at the university.

Unless explicitly mentioned, the bachelor's, master's and licentiate degrees listed in this table or on this page are to be understood as those issued by an institution of the French, Flemish or German-speaking Community, or by the Royal Military Academy.

In the event of the divergence between the different linguistic versions of the present conditions, the French version shall prevail.

Access based on application

Subject to approval of application

Additional training to be determined depending on the program followed previously: maximum 60 credits

Holders of a non-University 2nd cycle degree

Access based on application.

Access based on validation of professional experience

> It is possible, under certain conditions, to use one's personal and professional experience to enter a university course without having the required qualifications. However, validation of prior experience does not automatically apply to all courses. Find out more about [Validation of priori experience](#).

Adults who wish to enhance their professional experience or personal achievements in the field of criminology (justice houses, police, prisons, crime prevention...) will apply to the Admission Commission of the School of Criminology by submitting a VAE file.

Candidates must be able to justify at least 5 useful years of personal and/or professional experience, including successful years of higher education. For more information, please visit <https://uclouvain.be/fr/facultes/drt/ecri/vae.html>.

They will be able to accede to the Master in Criminology with the addition of additional teaching determined according to the previous course (maximum 60 credits). For more information, visit <https://uclouvain.be/fr/facultes/drt/ecri/mon-programme-de-cours.html>.

Access based on application

Access based on application : access may be granted either directly or on the condition of completing additional courses of a maximum of 60 ECTS credits, or refused.

Admission of students holding a non-Belgian degree

1. Conditions of admissibility of an application for admission to the Master's degree in criminology

The admission file of students who have successfully completed an undergraduate degree (minimum 3 years) in **Europe** will only be examined by the Admissions Commission of the School of Criminology if the student has obtained at least 60% (or 12/20) average for all successful academic years.

The admission file of students who have successfully completed an undergraduate degree (minimum 3 years) **outside Europe** will only be examined by the Admissions Committee of the School of Criminology if the student has obtained at least 65% (or 13/20) of average for all successful academic years.

This admissibility criterion is strictly applied.

2. Eligibility criteria

Academic level of the candidate

There is no universal rule because of the great diversity of backgrounds and institutions of origin. In general, however, typical cases of refusal are significantly longer than the norm for undergraduate and graduate students. Profiles with marked deficiencies in fundamental subjects for the Master in Criminology such as criminal law, sociology, clinical psychology, methodology are also typically refused.

The jury decides on the admissibility of candidates on the basis of the elements emerging from their entire file, the quality of the training followed and/or the subjects seen in the field of human and social sciences.

The admissions jury determines admissibility on the basis of the dossier and, if it deems it necessary, an individual interview.

Holders of a Master's degree in specialised criminology have direct access to the Master's degree programme in criminology with an in-depth focus.

Holders of a master's degree in criminology with a thorough purpose have direct access to the master's programme in criminology with a specialised purpose.

Admission and Enrolment Procedures for general registration

- Adults wishing to enhance their professional experience or personal achievements in the field of criminology are invited to visit <https://uclouvain.be/fr/facultes/drt/ecri/vae.html>.
- Candidates of foreign nationality will submit their application to the Registration Service, place de l'Université, 1 - B 1348 Louvain-la-Neuve, according to the procedure described at <http://uclouvain.be/fr/etudier/inscriptions>.
- Registration as a student "élève libre" is described on <https://uclouvain.be/fr/facultes/drt/ecri/eleve-libre.html>.
