The programme of the Master en droit à horaire décalé aims to help people already working to acquire the precise legal knowledge attested to by the award of a university degree leading to the same legal professions as the Master en droit (day classes).

This master is professional training par excellence.

As such, it is unique in the Belgian French community and allows students who have taken the Baccalauréat en droit à horaire décalé at the FUSL to perfect their training..

After three years' baccalauréat, the Master en droit programme has the dual objective of adding to the student's general training with training in key subjects (core courses) and helping him to specialise in subjects more specifically related to his future professional practice (focus and optional courses). The specialisation arises from the student choosing freely between the coherent sets of subjects.

The balance between general and specialised training should help the student acquire legal skills of a highly technical nature backed up by critical and analytical skills.

On successful completion of this programme, each student is able to :

#### 1. APPROFONDIR

1.1. Mobiliser et enrichir avec esprit critique les savoirs et compétences acquis au terme du programme de bachelier en droit, dans une perspective à la fois interdisciplinaire, comparative et professionnelle.

#### 2. MAÎTRISER ET APPLIQUER

2.1. Avoir une connaissance actuelle et une maîtrise générale des principes, règles, théories, doctrines et jurisprudences donnant corps aux différentes branches du droit, en particulier le droit fiscal, le droit des sociétés (droit commercial approfondi) et comptable, le droit international privé, le droit international public, le droit des sociétés, le droit patrimonial de la famille, le droit de la sécurité sociale et le droit des sûretés.

2.2. Connaître et comprendre l'influence qu'ont certaines normes et institutions européennes et internationales sur ces différentes branches du droit.

2.3. Connaître quelques traits essentiels de ces mêmes branches du droit à l'aune de quelques systèmes étrangers et maîtriser les techniques et les réflexes de recherche en droit comparé aux fins d'approfondir ces connaissances.

2.4. Rechercher, lire et comprendre des documents juridiques écrits et en néerlandais et en anglais ou en allemand.

Être capable de suivre un cours universitaire dans une de ces langues.

2.5. Dans l'une ou l'autre branche du droit, pouvoir, de manière autonome et créative, diagnostiquer un problème juridique complexe, en discerner, dans les moindre

4.6. A raison d'une analyse des situations et mécanismes humains, familiaux, économiques ou sociaux appréhendés par le droit, réfléchir à la justesse des solutions juridiques, aux moyens de les améliorer et agir en ce sens.

## Course prerequisites

---

The **table** below lists the activities (course units, or CUs) for which there are one or more prerequisites within the programme, i.e. the programme CU for which the learning outcomes must be certified and the corresponding credits awarded by the jury before registering for that CU.

These activities are also identified **in the detailed programme**: their title is followed by a yellow square.

### Prerequisites and student's annual programme

As the prerequisite is for CU registration purposes only, there are no prerequisites within a programme year. Prerequisites are defined between CUs of different years and therefore influence the order in which the student will be able to register for the programme's CUs.

In addition, when the jury validates a student's individual programme at the beginning of the year, it ensures its coherence, meaning that it may:

- require the student to combine registration in two separate CUs which it considers necessary from a pedagogical point of view.
- transform a prerequisite into a corequisite if the student is in the final year of a degree course.

For more information, please consult the [Academic Regulations and Procedures](#).

## The programme's courses and learning outcomes

---

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the skills expected of every graduate on completion of the programme. Course unit descriptions specify targeted learning outcomes, as well as the unit's contribution to reference framework of learning outcomes.
